

MIDDLESEX COUNTY JOURNAL, SATURDAY, APRIL 1, 1871.

Middlesex County Journal

John L. Parker, Editor and Proprietor.

SATURDAY, APRIL 1, 1871.

TOWN MEETING.

The annual town meeting occurs next Monday. The reports were delivered last Tuesday, "six days before the meeting," and have been perused with more or less interest by the voters of Woburn. The various expenditures have been discussed, and the appropriations asked for have been considered, and we may now act advisedly on all the matters in the warrant. The warrant, by the way, is an important affair, and contains twenty-six articles. Among these is one asking for reservoirs in East Woburn, a matter which ought to be attended to at once. New streets come in for a share of notice. Article 15 relates to the sale of intoxicating liquors. Last fall, the town voted to license the sale of beer, ale and cider, and the result has been anything but satisfactory to any but the rum-sellers. The town has now a chance to retrieve itself, and we hope the time is far distant when another rum-selling vote can be recorded on our Town Records. Every voter should read the report of the Chief of Police, and then vote conscientiously on this question.

The fence around the Common is an open question. No two citizens think alike upon it. As it is, no one can be pleased with it, and how to better it every one asks himself whenever called upon to pass it. It is evident the committee started with no definite plan, but proceeded with the work as our town was laid out, viz., to conform to ideas that suggested themselves as the work progressed. Something ought to be done, and we suggest the removal of the old triangular inclosure, and the placing of an iron fence on the circular curbstone. A wide mall around the fence for a promenade would add much to the attraction of the center of the town.

The 17th article in regard to the numbering of the buildings on the streets is really of more importance than some suppose. The difficulty experienced by business men in properly describing their location is considerable, and why any one should object to relabeling them by so simple a process as an official numbering of the buildings, cannot be accounted for on reasonable grounds. We hope the town will authorize the numbering of Main street, and any other street, when the occupants of the buildings may desire it.

Some desire a new valuation, on the ground that ours has been raised, while that of our neighbors remains the same, a fact which works to our disadvantage when the levy by the State and county are made.

It is proposed to purchase land in the rear of E. N. Blake's house, and erect a suitable engine, hose and hook and ladder house for the use of the firemen. This site is chosen for its proximity to running water where a wet reservoir might be maintained at a small expense, and where the steamer might set in case of a fire in our pile of kindling wood, and play upon it, with a chance of the occupants saving some of their goods. This subject deserves attention, and will doubtless stir up a lively debate.

The superintendent of streets will not be neglected next Monday, as there are many who feel that their apparent success at the last annual meeting has not been so real as it seemed.

If the town ever means to do anything about watering the streets, now is the time, and article 26 affords the text. Let us have a sprinkler by all means.

The Town Meeting will be lively, there is no doubt. It will be full of a surety. It will afford a good chance to grind axes, to display rhetoric, to exhibit political economy, to parade a love for old fogy ideas and to advance new ones. This little Congress of ours will display all the peculiarities of the national one. For about ten hours we shall fuss and fume, get mad, get pleased, and get everything else that we can, and then having got tired, go home and behave ourselves for another year.

THE MUSTARDBOXICON.—Our town broke out Wednesday with this cheerful instrument, which, in the hands of a smart or a dull boy, may be made to give forth sounds, the most dreadful ever heard by mortal ears. The instruments are made of a mustard box, with a hole in the bottom for the insertion of a string which is well resined. Holding the box in one hand and drawing the string through the other, the boys produce sounds in which the yelping of dogs, cock crowing, and goose gabbling, are freely combined. We shall have to get used to it, the same as we have done to bugles, street whistling and shoo-fly, and when we do, we shall like it.

THE RECORD.—This is the name of a new paper issued by T. C. Evans, the Boston Advertising Agent. The paper is titled, eight pages, and good, but the figure head is enough to make a printer sick. Evans, we beg of you to take away that skinny looking man who is clawing at an impossible stand with 108 boxes in the upper case, and the lower case like unto it. "Advertise your business all around the world," is good, however.

G. S. B.—Pilgrim Assembly No. 3 of the Good Samaritan Brotherhood of Boston, will hold a public meeting and public installation of officers on Wednesday evening next, April 5th, at their Assembly Room in "Tempur's Hall," No. 280 Washington street. All who wish to understand the principles and working of this new organization are cordially invited to attend.—Advertiser.

SONS OF TEMPERANCE.—This organization held a public meeting at Still's Hall last Tuesday evening. The hall was crowded with friends of temperance, and a very pleasant evening was passed. Mr. Leighton opened the exercises with reading a statement of the objects and aims of the order. Declamations, dialogues, songs and addresses followed. The Division, we learn, is doing a good work and progressing in numbers and influence.

ED.—The annual reports make a volume of 264 pages, which we believe is the largest book ever issued by the Town. The title and contents occupy 4; the valuation, 122; title and town officers, 4; town clerk, 14; auditor, 45; chief engineer, 4; chief police, 4; cemetery committee, 3; library committee, 7; selectmen, 7; town warrant, 2; school committee, 48. Of these 2000 copies were printed of the reports, and 200 extra of the school report. They have been delivered to the Town Clerk, who is distributing them.

TEMPERANCE.—Next Tuesday evening, John W. Berry, Esq., of Lynn, will lecture on temperance in Lyceum Hall, in the interests of the Independent Order of Good Templars. It is proposed to start a lodge of that order here, and all friends of temperance are invited to aid in the movement. The lecture will be free, and no doubt very interesting, as Mr. Berry is spoken of as an effective speaker. Let there be a full house, and the fact established that there is some feeling in Woburn favorable to the cause of total abstinence.

ROBBERS.—On Wednesday night some boys broke into the stores of Salmon & McDonald and J. H. Connolly, and stole small amounts of scrip, coppers, tobacco, &c.

ED.—William C. Pevere, in his testimony before the Committee on the State Police, said the Middlesex officers were all right, and went for him every time.

CONSECRATION OF TRINITY EPISCOPAL CHURCH.

Wichester.—ENTERTAINMENT.—The second of the entertainments gotten up by the young people connected with the Unitarian Society, came off on Friday evening of last week in the vestry of their church. It consisted of a dramatic representation entitled "Down by the Sea." The different characters were well sustained, and the performers gave evidence of considerable ability in this line. During the evening there was some excellent music upon the piano by Mrs. Adams, Misses Ella Stone and Carrie Metcalf, and Master Arthur Metcalf. The vestry was filled, and the audience composed mostly of the families of the Society, were highly entertained. Notice was given that hereafter these entertainments in connection with some benevolent works, and classes for moral improvement, would be under the auspices of the "Good Will Club," recently organized for the purpose of getting good and doing good by the young people of this parish.

GRAND CONCERT.—Last Saturday evening our community was favored with an opportunity to enjoy a good Concert, got up by the Young Men's Association. The performers were Henry C. Barnabee, Isabel Stone, and the famous Temple Quartette, consisting of D. F. F. Witz, W. H. Fessenden, H. A. Cook and A. C. Ryder. Howard M. Dow presided at the piano. The programme consisted of a selection of choice songs, which it is needless to add were all well rendered and encored. Barnabee is too well known to have not heard him should not miss the first opportunity to hear and see him, and those who have heard him once will be sure to go again. The "Temple Quartette" have already achieved an excellent reputation as singers, as well as Miss Stone. The Concert was well attended, and it is to be hoped that the young men may derive some pecuniary benefit from the affair.

ANNUAL TOWN MEETING.—The annual Town Meeting last meeting was more fully attended and more of an exciting character than any that we recollect to have seen. Hon. O. R. Clark was chosen Moderator. The Town Officers chosen were those nominated at the citizens' Caucuses on the previous Thursday evening, and received the following number of votes, viz:

Selectmen.—J. C. Mason, 230; J. F. Stone, 190; D. W. Locke, 239.

Town Clerk.—George P. Brown, 263.

Treasurer.—Stephen Cutler, 263.

Collector of Taxes.—Niall Cushman, 263.

Assessors.—J. F. Stone, 294; Summer Richardson, 257; Josiah H. Smith, 263.

Auditors.—E. A. Waileigh, 263; C. H. Dunham, 253; Salem Wilder, 262.

Coastal.—C. H. Dupee, 262; F. H. Johnson, 261.

School Committee.—George Cooke, 3 years, 236.

Billings.—F. Winsor, 262.

Treasurer of Town Library.—F. Winsor, 3 years, 263.

North Woburn.

The annual meeting of the North Congregational Parish was held at the church last Monday evening. Herbert H. Thompson was chosen moderator and C. R. Thompson was chosen clerk. The Parish Committee for the ensuing year are C. R. Thompson, J. P. Tyler, and E. W. Turner, Treasurer and Collector J. R. Carter, Auditor, Josiah Linscott. On account of the amount of business to come before the parish, and time not permitting, the meeting was adjourned for two weeks. The ladies will have a Calico Ball in Webster Hall (this Friday evening). The card of which the dresses are made not over 12 cents a yard. The sign on the post office building reads: "Merrill Bros. & Co." A man went into the store the other day and said to Mr. Geo. Merrill, "I know you and your brother, but who is Mr. Bros?"

THE RECORD.—This is the name of a new paper issued by T. C. Evans, the Boston Advertising Agent. The paper is titled, eight pages, and good, but the figure head is enough to make a printer sick. Evans, we beg of you to take away that skinny looking man who is clawing at an impossible stand with 108 boxes in the upper case, and the lower case like unto it. "Advertise your business all around the world," is good, however.

G. S. B.—Pilgrim Assembly No. 3 of the Good Samaritan Brotherhood of Boston, will hold a public meeting and public installation of officers on Wednesday evening next, April 5th, at their Assembly Room in "Tempur's Hall," No. 280 Washington street. All who wish to understand the principles and working of this new organization are cordially invited to attend.—Advertiser.

How we feel at times.

Sometimes we feel like a morning star,

Sometimes we all feel blue,

Sometimes we laugh and sing ha! ha!

Sometimes don't care for you,

Sometimes we feel all right and gay,

Sometimes we think 'tis wrong,

Sometimes we find a rainy day,

Sometimes a stormy, tempestuous day,

Sometimes old salts a smooth sea find,

Sometimes finds it rough;

Sometimes we're a happy frame of mind,

Sometimes it finds it tough;

Sometimes want good clothes to wear.

With the Royal's call,

He sits at Twenty-five Dots Square,

Good suits to please you all.

Spring Flowers.

S. R. W.

APRIL has dallied with us too long. Now putting us off with a robin's song, Now out of a cloud of gusty glooms, And then with a sparrow's her older plumes; As if there were something in her bosom; Now, with the sunshine on her crown, Shifting her cloak, all raged and brown, To give us glances of her green gown, Litting her veil, or gimmering through, Just to let us see how blue, how blue Are eyes the deep, enchanting hue, That which brings the liverleaf's cup with blue.

It is time for April flowers to show, Along the line of her gown's soft flow, I plucked the earliest, longest,

From a clouded field of sand-sky; Ere the wild March-snows had drifted by; Like, white, and the delicate dye

Tinged the cheeks of anemones, Pink, and blue, and blue, and blue;

At a brown, hirsute, mossy, flower-fringed brink,

And rare, even on those upper seas,

That luminous tint of clear pale green;

White only blooms in the sky, I ween.

It is time for April flowers to show

Along the line of her gown's soft flow,

I plucked the earliest, longest,

From a clouded field of sand-sky;

Ere the wild March-snows had drifted by;

Like, white, and the delicate dye

Tinged the cheeks of anemones, Pink, and blue, and blue, and blue;

At a brown, hirsute, mossy, flower-fringed brink,

And rare, even on those upper seas,

That luminous tint of clear pale green;

White only blooms in the sky, I ween.

From The Advertiser for April.

Alligator Leather.

The skin of the alligator, when properly tanned, makes an exceedingly tough and elastic quality of leather, said to be almost impervious to water. The first attempt made to utilize the hides of the reptile by making them into leather for boots, dates back about fifteen years, and was undertaken by two French brothers, who, in the endeavor to hasten the process, used hot liquor and vitrol, producing an inferior article of leather that was soon condemned by the trade. Their tannery was located at New Orleans and shared the fate of many similar industries in the South during the war being abandoned by its bankrupt proprietors and buried out of sight for the time. When the war was over the tannery and appurtenances, including the alligator branch of the business, was sold to Schayer Bros., of Boston, who transplanted the entire establishment to Roxbury (Boston Highlands). Green hides of the alligator are purchased at New Orleans and along the coast of Florida, all of which find their way to the Roxbury tannery, where they undergo a long and expensive tanning process, requiring eight months for its completion, during which they are handled regularly every week.

The skins of the young animals, only, are available, as, after maturity, the hide becomes horny and valueless to the tanner. Finished skins sell at from \$30 to \$20, according to size. A number of custom makers use the leather in the manufacture of heavy boots, valued at \$18, \$20 and \$25 per pair. The boots are made with a double upper, the inner vamp of calf, the outer one of alligator skin, cut in the opera style, with a thick double sole. These are just the boots needed by seafaring men, and are especially adapted to the cavalry service of the army. Their irregular and conspicuous checkered pattern and heaviness render them rather objectionable as dress boots, so that the time has not yet come when they can be quoted in a fashionable article.

In the tanning of alligator skins, it may be stated, that in the lining and drenching, care must be taken that the very sensitive portions of the skin called the crevices be not too long subjected to operation of these processes. As there is no hair, half the usual time allowed for calf will be sufficient to separate the scales from the skin, while in drenching great watchfulness must be exercised, in order that the tender skin of the crevices may not be rotted by a lengthly submersion. When put in the tanning vat they are subjected to twice the usual period of time permitted to calf, and are again very carefully handled in the finishing process, by experienced workmen.

In the fleshing and minor details they are subjected to the same operations that prevail in the manufacture of calfskins. The back of the skin, from the tip of the nose to the end of the tail, is entirely valueless, being covered with thick and hard horny scales. This part is cut out before shipment, leaving only about two-thirds of the entire skin for the use of the tanner. Their value is about twice that of the best American calf. About fifty alligator skins were tanned by the Schayer Bros. last summer, for a citizen of Boston, for the above machines in this town and vicinity. All are invited to examine these machines at his house on Elliot street.

MIDDLESEX COUNTY JOURNAL, SATURDAY, APRIL 8, 1871.

Middlesex County Journal,

John L. Parker, Editor and Proprietor.

SATURDAY, APRIL 8, 1871.

CAUCUS FRIDAY NIGHT.

Last Friday evening a caucus was held. E. E. Thompson, Esq., read the call for the meeting. William B. Harris moved to adjourn for twenty-four hours, giving as a reason that the notice had been insufficient. This provoked some discussion, and the motion was finally lost. Major Ambrose Bancroft was then elected president, and Hon. J. G. Pollard secretary. J. E. Littlefield moved that five Selectmen and three Assessors be nominated. J. L. Parker moved an amendment, making the number of Selectmen nine; this was lost. E. Marchant then moved a reconsideration, and on being asked if he had voted in the affirmative, frankly admitted that he had not, but demanded the right to have the question tried again, and spoke in favor of nine. J. E. Littlefield gave his views on the subject, and argued for a return to three, but would name five as a compromise number. Hon. Horace Conn defended the practice of the town of choosing nine, and favored an adherence to what had been found a judicious custom. Col. Grammer spoke in favor of nine, and referred to the town of Adams which had just adopted the Woburn plan rather than act under a city charter. Captain Walter Wyman also spoke. The motion to reconsider was carried, and nine adopted as the number. E. Marchant then moved a committee of five be appointed by the chair, to select a list of candidates. This was rejected, and a marking list opened for Selectmen, Overseers of the Poor, Assessors, and Highway Surveyors.

While the marking list was being prepared, Nathan Wyman was nominated for Town Clerk, G. R. Gage for Treasurer, J. G. Pollard, and H. C. Townley for School Committee. J. S. Wyman moved that J. W. Day be not nominated for Chief of Police, but later in the evening became reconciled to Mr. Day. Three constables were nominated, and two more added, viz.—John W. Day, E. Simonds, J. Gilcreast, P. Kenney and J. S. Wyman. E. Simonds was nominated for Collector of Taxes, and H. Allen for Sexton. Col. Grammer was nominated for Moderator. The result of the marking for Selectmen was as follows:—A. E. Thompson 51, A. Bancroft 47, H. Conn 46, J. Cummings 44, A. Thompson 39, W. T. Grammer 37, E. E. Thompson 36, E. N. Blake 34, Patrick W. Kinney 34, Thos. Salmon 32, J. P. Crane 28, Walter Wyman 25, L. G. Richardson 26, J. G. Pollard 19, J. H. Connally 13, G. Winn 13, M. A. Tyler 13, John Murphy 12, S. D. Samson 11, H. Collamore 9, W. H. Howland 7, J. E. Littlefield 6, E. W. Hudson 6, J. D. Taylor 6, T. J. Pierce 5, S. B. Holden 4, W. B. Harris 4, Henry Taylor 4, W. A. Tufts 2, John Lockerby 1. The name having the highest number were declared the nominees. Col. Grammer declined to have his name used, and Thos. Salmon was put in his place. The meeting was quite full, proving that sufficient notice had been given, and an adjournment was reached about half past ten.

TOWN MEETING.

The Town Meeting, last Monday, was opened with prayer by Rev. Dr. Porter. A vote for Moderator was taken, and W. T. Grammer had 45, John Cummings 22, Ambrose Bancroft 1. A motion was made for the usual number of officers, including three constables. One of the tickets had five names, and after the voting had progressed a little, the moderator announced that the tickets having five names could not be counted, the town having declared in favor of three. The voting progressed quietly until one o'clock, when the articles in the Warrant were taken up. W. B. Harris moved for an appropriation of \$15,000, and afterwards reduced to \$10,000. Walter Wyman amended, so as to make it \$5,000. A lively discussion occurred between Mr. Harris and Mr. Conn, and Mr. Cummings on the action of the two last in regard to the roads. On the subject of schools, Mr. Marchant arraigned the committee for neglect of duty, and as they had only endorsed the Superintendent's report, they had shown either their unwillingness or their inability to write a report. Mr. Pollard replied that the chairman was away on account of ill health when the report had to be made, and as the report of the Superintendent covered all the ground, it was thought best not to multiply words and incur additional expense. If the committee are unable to write a report, the Town could easily find those who could. Mr. Whitney thought we had too much schooling, and the committee was too large. He favored the reduction of the appropriation. Many of the articles that generally provoke discussion passed without comment. Among these were the votes to pay off \$10,000 of the debt, and to enforce the liquor law, the town in the latter vote redeeming itself from the position taken last Fall.

In regard to fencing the Common, Mr. Winn was glad we might now decide the matter. We had thought a street must run across one corner, but now knew that the street was illegally laid out. We have no common to spare, and it is very desirable to maintain it as it is. He favored the removal of the curbstones, and thought they might be worth \$500 to cover drains. To fence it will cost \$4,000, which he said was a sum too small to be allowed to stand in the way. Mr. Cummings said he had been on the monument committee from the first. They had desired to retain the triangular form but found it impossible. An irregular form was tried, but found impracticable. He declared they had been at work in accordance with a plan, and when it was completed it would be found to be satisfactory. Mr. Champney regarded the old fence as a nuisance, and the triangle not in good taste. He suggested a mail twelve feet wide outside the curb. Mr. Marchant went in for the circle and the removal of the excrescences that now mar the beauty of the Common. The suggestion of Mr. Winn that \$4,000 was of no consequence, he said was not in accordance with that gentleman's private practice, and he thought it well worth the saving. The town

chose a committee of five to go on and complete the Common and put \$2,500 at their disposal.

Mr. Littlefield criticised the valuation of last year, and argued in favor of a new one, on account of the irregularities of the last one. The town voted to make a new one.

The vote to number the buildings on Main street went through without a murmur. \$250 was voted for decoration day. The gravel question stirred up a little eloquence. The plan of digging down hills to fill up hollows, rather than buying gravel pits, seemed to be in favor.

A motion by E. W. Champney to have a competent engineer for superintendent of streets was laughed at by some who think they know all about road building, and of course voted down. The town then elected John Regan superintendent of streets, and then promptly took away all his power by the stereotyped vote, "under the direction of the Selectmen." On the water-cast question the gentlemen from the outside waded up, and moved "to dismiss the article," that being the old form of voting to indefinitely postpone. After considerable filibustering they carried their point, and the dust will fly in their eyes when they come down town this next summer. This closed the articles, and as the ballots were so badly split" the moderator told us we must wait an hour before we could know the result of the voting. After a little fun in choosing fence viewers, &c., most of the voters were home with the feeling that it had been a good town meeting.

SCHOOL COMMITTEE. The School Committee met on Tuesday, and organized with Mr. Townley for Chairman and Mr. Pollard for Secretary. Abby M. Robinson resigned on account of ill health. Eliza M. Fowle was appointed to the Lawrence Intermediate, and Eliza B. Ingalls to the Highland Street Intermediate. The Committee was subdivided as follows:—Townley and Cummings to the Cambridge St., Cummingsville, Pleasant St., and Plympton St. Johnson and Pollard to the Warren St., Lawrence, Highland St., and East Woburn. Kimball and Thompson to the No. Woburn, Main St., Cedar St., and Union Street.—Thomas Emerson was re-appointed Superintendent of Schools. The schools were closed from Fast Day to the following Monday. The class of 70 was granted the use of a room—the High School House to organize a class society. Emerson and Pollard were appointed a Committee to arrange for the graduating exercises of the High School.

EDWARD WOBURN. For the support of the Poor, under the direction of the Selectmen, \$5,500 For Highways, Bridges and Sidewalks, under the direction of the Selectmen, 5,000 For building new roads, under the direction of the Selectmen, 3,000 For school instruction and care of rooms, under the direction of the School Committee, 20,000 For school incidents, under the direction of the School Committee, 5,000 For support of Fire Department, 3,500 Town Library, 600 Cemetery and Burial Grounds, 500 Interest on Town Debts, 7,000 Town Officers, 2,500 miscellaneous expenses, 6,000

Art. 9. Voted, that the Treasurer be authorized to hire money under direction of the Selectmen, to be applied as State aid for the families of volunteers.

Art. 5 (on compensation of Engine Companies), voted to refer to the Selectmen.

Art. 6 and 25, that the Board of Selectmen and Engineers be empowered to locate and build such reservoirs as they in their judgment deem for the best interest of the town, not to exceed five in number.

On Art. 7, voted that the money received of the county for dog licences be appropriated for the benefit of the Town Library.

On Art. 8, money raised, For the support of the Poor, under the direction of the Selectmen, \$5,500

The New Jerusalem Church, though without a pastor, is prospering. The average attendance is 75, and the Sunday school numbers 22 scholars. There are eleven communicants. Mr. H. B. Wood of Stoneham and Mr. John Munday of Woburn, read the services on alternate Sundays, and on the fourth Sunday the New Church Association send them a minister. Last Sunday Rev. Mr. Dungan was present, and the Holy Supper was partaken. His discourse was very interesting. The congregation comprises many from Stoneham, who belong to Boston churches of the same faith.

William Wilson is building a two-story French roof house on the west side of the Lowell railroad, near the station. The farmers in the vicinity have commenced their spring work, and some of them have large fields of grain already sown.

PARISH MEETING. The First Unitarian Parish held their annual meeting last Monday evening. Hon. Charles Choate was chosen moderator. E. W. Champney was elected clerk, but having served for 19 years, declined serving another year. James N. Dow was then chosen Clerk; J. W. Hammond, Treasurer and Collector; W. T. Grammer, Auditor; John Johnson, M. F. Winn, S. A. Grammer, Cyrus Tay, C. S. Converse, Parish Committee. It was voted to raise \$500 for current expenses; the rate of taxation on the pews is ten per cent.

EDWARD WOBURN. The annual meeting of the First Congregational Sunday school was held at Fast Day. J. G. Pollard was unanimously re-elected Superintendent; H. A. Gleason was re-elected Superintendent of the Infant Department, but declined further service; J. L. Parker was elected to write a report. Mr. Pollard replied that the chairman was away on account of ill health when the report had to be made, and as the report of the Superintendent covered all the ground, it was thought best not to multiply words and incur additional expense. If the committee are unable to write a report, the Town could easily find those who could. Mr. Whitney thought we had too much schooling, and the committee was too large. He favored the reduction of the appropriation. Many of the articles that generally provoke discussion passed without comment. Among these were the votes to pay off \$10,000 of the debt, and to enforce the liquor law, the town in the latter vote redeeming itself from the position taken last Fall.

In regard to fencing the Common, Mr. Winn was glad we might now decide the matter. We had thought a street must run across one corner, but now knew that the street was illegally laid out. We have no common to spare, and it is very desirable to maintain it as it is. He favored the removal of the curbstones, and thought they might be worth \$500 to cover drains. To fence it will cost \$4,000, which he said was a sum too small to be allowed to stand in the way. Mr. Cummings said he had been on the monument committee from the first. EDWARD WOBURN. For the support of the Poor, under the direction of the Selectmen, \$5,500 For Highways, Bridges and Sidewalks, under the direction of the Selectmen, 5,000 For building new roads, under the direction of the Selectmen, 3,000 For school instruction and care of rooms, under the direction of the School Committee, 20,000 For school incidents, under the direction of the School Committee, 5,000 For support of Fire Department, 3,500 Town Library, 600 Cemetery and Burial Grounds, 500 Interest on Town Debts, 7,000 Town Officers, 2,500 miscellaneous expenses, 6,000

Art. 9. Voted, that the Treasurer be authorized to hire money under direction of the Selectmen, to be applied as State aid for the families of volunteers.

Art. 10. Voted, that the Treasurer be authorized to hire money, under the direction of the Selectmen, to pay Town indebtedness.

Art. 11. Voted, that the Treasurer be authorized to hire money, under the direction of the Selectmen, in anticipation of taxes.

Art. 12. Voted, to raise ten thousand dollars for the payment of Town debts.

Art. 13. Voted, to accept report of the Selectmen on widening Sturgis street, as follows:

Widening of Sturgis street extension, off Canal street, the southerly side from Canal to Town, and on the easterly side of Beacon street; the equal tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord.

Art. 14. Voted, to accept the reports of the Selectmen on widening Clinton and Beach streets, as follows:

Beginning at a stake on the westerly side of Main street at land of the late John G. Richardson deceased, and nine feet from the westerly side, from the line in a curve to the easterly side of which are eight feet, chord forty-four and four-tenths feet, middle ordinate twenty-four and one-tenths feet, and the curve to be upon the right hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, thence to a point which is forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, each tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord.

Art. 15. Voted, to accept the reports of the Selectmen on widening Clinton and Beach streets, as follows:

Beginning at a stake on the westerly side of Main street at land of the late John G. Richardson deceased, and nine feet from the westerly side, from the line in a curve to the easterly side of which are eight feet, chord forty-four and four-tenths feet, middle ordinate twenty-four and one-tenths feet, and the curve to be upon the right hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, each tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, each tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord.

Art. 16. Voted, to accept the reports of the Selectmen on widening Clinton and Beach streets, as follows:

Beginning at a stake on the westerly side of Main street at land of the late John G. Richardson deceased, and nine feet from the westerly side, from the line in a curve to the easterly side of which are eight feet, chord forty-four and four-tenths feet, middle ordinate twenty-four and one-tenths feet, and the curve to be upon the left hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, each tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord.

Art. 17. Voted, to accept the reports of the Selectmen on widening Clinton and Beach streets, as follows:

Beginning at a stake on the westerly side of Main street at land of the late John G. Richardson deceased, and nine feet from the westerly side, from the line in a curve to the easterly side of which are eight feet, chord forty-four and four-tenths feet, middle ordinate twenty-four and one-tenths feet, and the curve to be upon the left hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, each tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord.

Art. 18. Voted, to accept the reports of the Selectmen on widening Clinton and Beach streets, as follows:

Beginning at a stake on the westerly side of Main street at land of the late John G. Richardson deceased, and nine feet from the westerly side, from the line in a curve to the easterly side of which are eight feet, chord forty-four and four-tenths feet, middle ordinate twenty-four and one-tenths feet, and the curve to be upon the left hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, each tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord.

Art. 19. Voted, to accept the reports of the Selectmen on widening Clinton and Beach streets, as follows:

Beginning at a stake on the westerly side of Main street at land of the late John G. Richardson deceased, and nine feet from the westerly side, from the line in a curve to the easterly side of which are eight feet, chord forty-four and four-tenths feet, middle ordinate twenty-four and one-tenths feet, and the curve to be upon the left hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, each tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord.

Art. 20. Voted, to accept the reports of the Selectmen on widening Clinton and Beach streets, as follows:

Beginning at a stake on the westerly side of Main street at land of the late John G. Richardson deceased, and nine feet from the westerly side, from the line in a curve to the easterly side of which are eight feet, chord forty-four and four-tenths feet, middle ordinate twenty-four and one-tenths feet, and the curve to be upon the left hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, each tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord.

Art. 21. Voted, to accept the reports of the Selectmen on widening Clinton and Beach streets, as follows:

Beginning at a stake on the westerly side of Main street at land of the late John G. Richardson deceased, and nine feet from the westerly side, from the line in a curve to the easterly side of which are eight feet, chord forty-four and four-tenths feet, middle ordinate twenty-four and one-tenths feet, and the curve to be upon the left hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, each tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord.

Art. 22. Voted, to accept the reports of the Selectmen on widening Clinton and Beach streets, as follows:

Beginning at a stake on the westerly side of Main street at land of the late John G. Richardson deceased, and nine feet from the westerly side, from the line in a curve to the easterly side of which are eight feet, chord forty-four and four-tenths feet, middle ordinate twenty-four and one-tenths feet, and the curve to be upon the left hand of its chord; thence running South 88 deg. 30 min. east by land of said Richardson, each tangent to which are forty feet, chord fifty-four and six-tenths feet, middle ordinate fourteen and two-tenths feet, and the curve to be upon the left hand of its chord.

PURE WATER FOR WOBURN.

On Wednesday, Mr. Merrill, of the Committee on Mercantile Affairs, reported to the House a bill to supply the town of Woburn with pure water from Horn Pond and the waters which flow into the same. The bill is as follows:—

AN ACT

To supply the Town of Woburn with Pure Water.

Be it enacted by the Senate and House of Representatives, in General Court assembled, and by the authority of the same, as follows:—

SECT. 1. The town of Woburn, for the purpose of supplying the inhabitants thereof with pure water, is hereby authorized to take, hold and convey to, into, and through said town, the water of Horn Pond so called in said Woburn, or the waters of any other pond in said Woburn, and the waters which flow into the same, and any water-rights connected therewith; and may take and hold, by purchase or otherwise, such land on and around the margin of said ponds, not exceeding five rods in width, as may be necessary for the preservation and purity of said waters, and may also take and hold in like manner, such lands in said Woburn and in the town of Winchester, as may be necessary for erecting and maintaining dams and reservoirs, and for laying and maintaining conduits, pipes, drains and other works for collecting, conducting and distributing said waters through said town of Woburn. The said town of Woburn shall within sixty days from the time of taking any land as aforesaid, file the registry of deeds for the southern district of Middlesex county, a description of land so taken, sufficiently accurate for identification, and state the purpose for which it is taken.

SECT. 2. Said town of Woburn may build aqueducts and maintain the same by any works suitable therefor; may erect and maintain dams; may make reservoirs and hydrants, and may distribute the water throughout the town of Woburn by laying down pipes, and may establish the rent therefor. Said town may, also, for the purposes aforesaid, carry its pipes and drains over or under any water-course, street, railroad, highway or other way, in such manner as not to obstruct the same; and may enter upon and dig up any road in such manner as to cause the least hindrance to the travel theron.

SECT. 3. Said town of Woburn shall be liable to pay all damages that shall be sustained by any persons to their property by the taking of any land, water or water-rights, or by the constructing of any aqueduct, reservoirs or other works for the purposes aforesaid. If any person who shall sustain damages as aforesaid cannot agree with said town upon the amount thereof, he may have them assessed in the same manner as is provided by law with respect to land taken for highways.

SECT. 4. No application shall be made to the County Commissioners for the assessment of damages for the taking of any water-rights, until the water is actually withdrawn or diverted by said town. Any person whose water-rights are thus taken or affected, may apply as aforesaid, at any time within one year from the time when the water is actually withdrawn or diverted.

SECT. 5. Three Commissioners chosen by the town shall execute, superintend and direct the performance of all the works, matters and things mentioned in the preceding sections, and not otherwise herein specifically provided, subject however to such rules, regulations and by-laws as the said town may ordain or establish, not repugnant to the provisions of law. They shall respectively hold office for the term of three years next after their election, but may however be removed by vote of the town. Vacancies in the board of Commissioners may be filled by an election of another commissioner for the unexpired term. A majority of said board shall be a quorum for the exercise of the powers and the performance of the duties of said office, they shall once in six months, and whenever required by the town, render a particular report in writing of all their doings, and of the condition and progress of said works. The town shall fix the salaries of said commissioners before their election, which shall not be reduced during their continuance in office.

SECT. 6. For the purpose of defraying the cost and expenses which may be incurred under the provisions of this act, the town of Woburn, through its treasurer, shall have authority to issue from time to time, notes or certificates of debt, to be denominated on the face thereof, "Woburn Water Fund," to an amount not exceeding two thousand dollars, bearing interest at a rate not exceeding seven per cent per annum, payable semi-annually; the principal shall be payable at periods not more than twenty years from the issuing of said notes, scrip or certificates respectively. Said treasurer, under the authority of said town of Woburn, may sell the same or any part thereof, from time to time, to pledge the same for money borrowed for the purposes aforesaid on such terms and conditions as he may deem proper. Said town of Woburn is further authorized to make appropriations and assess from time to time such amounts, not exceeding in one year the sum of ten thousand dollars, towards the payment of the principal of the money so borrowed, and also a sum sufficient to pay the interest thereof, in the same manner as money is assessed and appropriated for other town purposes.

SECT. 7. The town of Woburn shall establish or may authorize the said board of Commissioners or the Board of Selectmen of said town to establish, such price or rent for the use of the water as to provide annually, if practicable, from the net income and receipts thereof, for the payment of the interest, and not less than one per centum of the principal of the water loan, and shall determine the manner of collecting it. The net surplus income and receipts, after deducting all expenses and charges of distribution, shall be set apart as a sinking fund and applied solely to the payment of the principal of said loan, until the same is fully paid and discharged.

SECT. 8. The occupant of any tenement shall be liable for the payment of the rent for the use of the water in such tenement; and the owner shall also be liable if, on being notified of such use, he does not object thereto.

THE VETERANS' ANNIVERSARY.

The Veterans of Woburn with their ladies to the number of fifty-four, held their anniversary supper at the Central House last Monday evening. Since the surrender of Lee these annual gatherings have been held, where comrades gather with their wives and sweethearts and talk over the days of '65. The one this year was very pleasant and highly satisfactory. The parlors were thrown open and with chat and evening games the hours passed pleasantly. The Dutchman with a fiddle was present, and those who chose had a social dance.

About nine o'clock a splendid supper was served, in which Hartshorn shone out with great lustre. After some time spent in eating, Comrade A. S. Leslie introduced Col. L. W. Osgood, as toast master. He announced the first regular toast to be "The importance of military suppers." Col. W. T. Grammer was called upon to respond, which he did in his usual easy and pleasing manner.

Major Bancroft was next called out, and in a feeling manner alluded to the privations of campaigning, the chiefest of which was the absence of female society, and gave the sentiment "Our lady friends—our inspiration in the hour of battle; their smiles of approbation our most complete reward."

Capt. Crane excused himself from speaking, and the chairman of the fence viewers was called on for a few remarks in which he re-echoed the story of one Patrick Donavan to the amusement of the company.

The Journal man was next called out, but having no notes of what he said "we'll let that pass."

C. K. Conn gave his version of the surrender, and A. P. Barrett told a story, and that reminded A. S. Leslie of another, and so it went round the table, and every body said it was a good time, and hoped to have many others.

Returning to the parlors the games were resumed, and the hours flew swiftly, and when the company finally dispersed it was with the feeling that it was one of the best anniversaries they had had.

MRS. VAN COTT.—This lady conducted the services at the Methodist church four days, closing with Sunday. The meetings were very fully attended. She was certainly the most remarkable religious preacher that ever visited Woburn and is fairly entitled to be called a female Bonaparte. She is a most effective speaker, and is sought for on all hands. Her engagements are already made for more than a year in advance. She went from here to Springfield, and will re-visit Woburn in January next.

METHODIST.—The following are the appointments of the Methodist conference to towns in this vicinity: Charlestown Trinity Church, T. B. Smith; Charlestown Union Church, Sanford B. Sweetser; Somerville, John W. Hamilton; Wesley C. Sawyer; Cambridge, East, supplied by W. Leonard, Cambridge, West, to be supplied. Cambridge, Harvard Street, Ira G. Bidwell; Cambridge, North Avenue, Samuel Jackson; Lowell, St. Paul's, Dan C. Knowles; Somerville—D. G. Woodvine, M. D., of Boston.

CONSOERS.—W. P. Gambell, M. D., A. F. Squier, M. D., J. T. Harris, M. D., F. N. Palmer, M. D., of Boston, and H. L. Chase, M. D., of Cambridge.

REV. DR. MARCH.—Our citizens will be glad to know that Rev. Dr. March has been induced to visit Woburn and deliver his course of lectures on foreign travel. The interest he excited in a former course, which referred to his travels in Italy and Switzerland will be remembered by many. The present course describes his recent tour in the East, and is highly spoken of by those who have heard it. The first lecture will be given next Thursday evening.

The tickets have been placed at the low rate of 50 cents for the course, and this with the popularity of the lecturer will doubtless fill the house.

ANNUAL MEETING.—The annual meeting of the First Congregational Church was held last Monday evening. L. Thompson, Jr. was elected Clerk, R. Gage, Treasurer, W. A. Stone, Clerk, Treasurer and Librarian of the Charitable Religious Library, G. R. Gage, L. H. Allen, C. A. Smith, H. A. Gleason, O. F. Bryant, L. Thompson, Jr., H. Whitford and William Vaughan, Standing Committee.

WORSHIP READING.—Is the Boston Weekly, with its 8 pages of splendid original Stories, Sketches, Poems, etc. It is wonderful how the publisher can afford it at so low a price; only \$1.50 per year. In No. 13, dated March 28, commences the greatest story of the 19th century, "The Man in the Iron Mask," a specimen copy of which will be sent to any person wishing to examine it, for two three-cent stamps. Address Charles A. J. Farrar, 37 Temple Place, Boston, Mass.

G. S. B.—The following are the officers of Abraham Lincoln Assembly, No. 1, G. S. B., for the current quarter: Owen S. Warland, W. C. R.; C. A. McDonald, W. F. R.; Mrs. J. M. Warland, W. R. S.; Henry Keene, W. A. R. S.; Mark Allen, W. F. S.; Geo. S. Dodge, W. T.; Geo. E. Flanders, W. S. G.; F. Wiggin, W. J. G.; H. H. Flanders, W. S. W.; Geo. E. Kendall, W. J. W.

GOOD TEMPLARS.—The lodge of Good Templars mentioned last week, was organized and the officers installed Wednesday evening. The lodge is called "Woburn," and numbered 106. The officers are as follows:—W. C. T.; J. K. Murdoch; W. V. T.; Jenny Brown; W. S.; Winn; W. F. S.; Albert Yee; W. Treas.; John Stackpole; W. Chap.; C. A. McDonald; W. M.; R. F. McKee; Asst. M.; Phoebe Munroe; I. G.; Minnie Yee; O. G.; Daniel Weldon; R. H. S.; Mrs. J. Stackpole; L. H. S.; Melinda Treacle; P. W. C. T.; J. W. Vye. Regular meetings Tuesday evening.

BROWN'S PATENT TYPE-SETTING AND DISTRIBUTING MACHINERY.—A work exhibiting the advantages and nice points of this new labor-saving machinery, together with complimentary notices of it from different first-class papers and magazines, before us. All the types from which this pamphlet was printed set by this machine is in use for more than a year and subjected to usage more unfavorable than usually falls to the lot of type, having been used principally to exhibit the machines. Taking this into consideration, the whole presents a very pleasing effect to the eye. Further particulars concerning it will be furnished on application to Horace Dodd, 121 Washington street, Boston.

DRESSMAKING.—Mrs. Sarah C. Barker's advertisement should be perused by our lady readers.

CHARITY.—The Common Committee had a landscape gardener to view the "bester," the other day, and a plan for the proposed improvement is preparing.

CHARITY.—Last Friday night a horse belonging to Robert Wymans was cast in his stall, and found dead in the morning.

CHARITY.—The plan for baby carriages is here, where you can make a good selection, suit your pocket, suit your wife and suit your baby. Don't forget to go to Horton's with the baby.

years, 10 months, 10 days. In Woburn, April 16th, Henry Hardman, aged
about 70 years, 3 months.

How we feel at times.

Sometimes we feel like a morning star,
Sometimes we all feel blue,
sometimes we laugh and sing ha! ha!
Sometimes don't care for you,
sometimes we feel all right and gay,
Sometimes we think we're wrong,
sometimes we find a rainy day,
Sometimes a fearful storm,
sometimes old salts in a sea find,
sometimes they're in it rough;
sometimes they're in a happy frame of mind,
Sometimes we feel it tough,
sometimes we want good clothes to wear.
We then on Richard's call,
he sells at Twenty-five Dock Square,
Good salts to please you all.

A Cough, Cold, or Sore Throat.

Requires immediate attention,

as most often results in an incurable Lung Disease.

Brown's Bronchial Troches

will most invariably give instant relief.

For BRONCHITIS, ASTHMA

ATMOSPHERIC AND THROAT DISEASES,

they have a soothing effect.

STERLING PUBLIC SPEAKERS use them

clear and strengthen the voice.

Given to the good reputation and popularity of

Troches, many worthless and cheap imitations

are offered, which are good for nothing. Be sure to

stein's true.

<p

Nelson Singing "Old Folks at Home."

The symphony hall was crowded
With the music of the upper ten,
It was with a quiet, *hush*,
Its soft and *permeant* *men*,
And a thousand painted eyebrows
Were lifted in wonder there,
When "Down on the Swanne River"
Rang out on the brilliant air.

We had formally applauded
Her open trill so clear,
That it rang out like a siren,
But it never reached the ear;
But that strain of negro music
Touched many a heart that night,
And brought, with its simple pathos,
Up visions of old delight.

The gentlemen and the ladies
Forgot "proprieties" then,
And for one delicious moment
Were all *one*—*one* and *one*,
While swayed with the wild emotion
That audience, gay and vast,
As surges a bed of tulips,
When a sudden gale sweeps past.

The SABBATH.—The Sabbath is the brightest day of the week to a man who works with honest toil. None so well as the laborer, who earns his daily bread by the sweat of his brow, can appreciate and enjoy its quiet and its rest after a week's confinement and toil, which deprives him of the society of his family and opportunities for recreation. The laboring man needs and must have recreation and time to improve the mind. The agitation of the present hour, and just demands of the workingmen for lower hours of toil, and an equitable share of the united products of capital and labor, will give all these more fully than at present, without trenching on the few hours wrested from the hurrying days of life; for the purpose of rest, thought and worship. The tendency of the present is to degrade and prosecute the Sabbath to the service of pleasure. Let this be done and the poor man has no day of rest. The Sabbath at once becomes his task master, compelling him to minister to the pleasure of those more highly favored. He may work that others may enjoy. Pleasure involves work; and the poor man has this task to perform. There are too many on railroads and in cities, in saloons, and in morning newspaper offices, who have no day of rest, and who are compelled to plod on day after day, without Sabbath, until life seems, and to them, but one long and dreary task, ever pressing, but never done. The Sabbath—the Sabbath of the oldest times—with its calmness and repose, so like our brightest dreams of heaven, its village bells, its throngs of worshippers, its grand anthems and sacred memories—this is to the weary and poor a priceless treasure. No one should guard it more carefully, or defend it more earnestly, than the man of toil. He should be slow to yield this day to amusement. To keep this day sacred, leaves us little enough time to think of those interests lying beyond the present life, which are, after all, our greatest interests, as we shall sooner or later see and feel.

INFLUENCE OF CHRISTIAN CHARACTER.—Even in the busiest town and amid the most absorbing pursuits, the hearts of men turn with instinctive homage toward those who have brought down and illustrated in their lives the purest precepts of our faith. The man who lives in accordance with them, who carries them with him wherever he goes, in meekness and simplicity, bears also with him a weight of authority which silently disarms the shallow reasoning of Sardian selfishness and unbelief.

The life of a true woman reveals to us sources of influence which the world can never give. She may be endowed with a charm of personal loveliness which adds to the attractiveness of her virtues, she may have advantages of wealth and position, which give her an opportunity that all cannot have to show her disinterested regard for others; she may have qualities of mind and heart which peculiarly fit her to be the pride and joy of her friends. But these are not the source of the power which goes from her, through which she creates around her an atmosphere of gentle, benignant affections, while she fills each day with the perhaps unacknowledged and unrecognized offices of kindness that make her home a centre of Christian charities and graces. Her life, while it is with us, is a perpetual benison; and when she is not, it is still, in ever-widening and deepening circles, diffusing itself through the hearts of those she loved and through the community in which she lived. There is no more benevolent or powerful influence than the living presence, or when that is withdrawn, the silent memory of those who are thus the dearest exemplars that we have known of the spirit and the religion of Jesus.—Dr. Morrison.

DIFFUSERS OF HAPPINESS.—Some move through life as a band of music moves down the street, ringing out pleasure on every side through the air to every one, far and near, who can listen. Some men fill the air with their presence and sweetness, as orchards, in October days, fill the air with the perfume of ripe fruit. Some women cling to their own houses like the honeysuckles over the door, yet, like it, fill all the region with the subtle fragrance of their goodness. How great a bount and a blessing it is to hold the royal gifts of the soul that they shall be music to some, and fragrance to others, and life to all! It would be no unworthy thing to live for, to make the power which we have within as the breath of other men's joys; to fill the atmosphere which they must stand in with a brightness which they cannot create themselves.—Beecher.

—Horace Greeley says that the climate of Missouri is suited to silk culture, and that if somebody would take the master in hand and import a few of the silk-bearing sheep they would no doubt reap a harvest. Somebody asked him where that particular breed grew, when he replied: "Damno!" The chap is searching the Atlas for it. The old philosopher strongly recommends home manufactures, and says: "The common American variety of turkey raised by every farmer furnishes as good morocco as the best imported. The method of dressing the skins has everything to do with it."

—It is said that a small piece of resin, dipped in the water placed in a vessel on the stove, will add a peculiar property to the atmosphere of the room, which will give relief to persons troubled with cough. The heat of the water is sufficient to throw off the aroma of the resin.

New Lumber Yard

J. C. WHITCHER

Respectfully informs the public that he will sell all kinds of Eastern, Western and Northern LUMBER, AT LOWEST CASH PRICES.

THE AMERICAN,

BUTTON HOLE, OVER SEAMING,

AND

Sewing Machine Combined

As now offered to the public is the

Most Perfect Sewing Machine

In the market. In fact it is the only one that embodies any and every improvement ever made in the art. It uses a straight needle, has a new and improved Shutter, is simple and direct, and will work a "Perfect Combination Machine" will work a "Perfect Combination Shutter" in the same time, and will do all other kinds of sewing that any can buy or rent.

These two styles of "American Sewing Machines" are an unprecedented sale.

The "PLAIN AMERICAN" will hold, full, tuck, gather, gather, and sew on, is the simplest and most easily managed machine ever invented, for every lady says of it, "I can't sew by hand, and will set for ages."

FREE EXHIBITION DAILY

AT NO. 47 HANOVER STREET, BOSTON.

Manhood: How Lost, How Restored.

He has published a new edition of DR. CULVERWELL'S CELEBRATED ESSAY ON THE radical cure, with special reference to Sexual Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Impairment, and the various forms of Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.

The celebrated author, in this admirable essay, clearly and concisely exposes the pernicious practice that the alarming consequences of self-abuse may be easily avoided with the danger of life removed. The author has added a new chapter on the knife-pointing out a mode of cure, once simple, and safe, but which his condition may be, himself, however, privately, and *radi-* *cal*, and which he has now given up.

These two styles of "American Sewing Machines" are an unprecedented sale.

One lady writes the Combination Machine, "I have charged a great many times, and it never gets out of order. I have worked 8,228 hours, and have given it a great many hours, and have given it perfect satisfaction. Another lady says of the Plain American, "I have run it for a year, and it is the best machine I ever saw."

The author has sent the Gold Medal, at the last, to the Mechanics Charitable Association last September, and are holding golden opinions among the ladies generally, and the men, who have seen it. All are in favor of it, and are giving it a great many hours, and have given it perfect satisfaction. Another lady says of the Plain American, "I have run it for a year, and it is the best machine I ever saw."

Poetry.

ENDURANCE.

How much the heart may bear, and yet not break!
How much the flesh may suffer, yet not die!

I question much if any pain or ache

Or son or body brings our end more nigh;

Death—hushes his own time, till that is worn

All evils may be borne.

We shrink and shudder at the surgeon's knife,

Each nerve receding from the cruel steel

Will not seem to be for the quivering life,

Yet to one more the bitter pangs reveal

This still, although the trembling flesh be torn,

This also can be borne.

We see a sorrow rising in our way,

And try to flee from the approaching ill;

We seek some small escape, we weep and pray;

But when the blow falls, then our hearts are still;

Not that the pain is of its sharpness sharp,

But that it can be borne.

We wind our life about another's life,

We hold it closer, dearer than our own;

And when it is snatched from us, it only striveth,

Leaving us stunned, and stricken, and alone;

But, ah! we do not die with those we mourn;

This also can be borne.

Behold! we live through all things—famine, thirst,

Bereavement, pain; all grief and misery

All was and sorrow; life infests its worst

Soul and body, we cannot die.

Though we be sick, and tired, and faint, and worn,

Let all things be borne.

Selected.

How a Dream Came True.

"I'm very tired," sighed the minister, as he pushed the shutters impatiently back. Their movement sent in a shower of rose leaves.

"Pitty, pitty!" cried a childish voice.

Mrs. Winfield, the minister's wife, stood at the door in a cool white wrapper, holding back a beautiful, eager

child.

"Shall she come in, George? are you through?"

"Yes; come here, Rosebud, and kiss away papa's headache."

"Tell papa he must walk out and let the wind kiss it away," said the clergyman.

The little thing repeated her mother's words in body language.

"You should go out, George," said Mrs. Winfield reiterating; "go to the running brooks and stones, or some of your poor parishioners, and let them talk to you. You know that always does you good; and there's old Bessie."

"Oh yes, little Bessie; I had almost forgotten the child, haven't been there for a week; and the good little tailor; he will think we have neglected him. One more hug, pet, and pick up the roses; good by, wife," and leaving a kiss on two pairs of lips, he put on his hat and went out.

"Well, Bessie," he said, "is the pain gone?"

"Yes, sir, thank you," she replied in a voice like soft, sweet music.

"And you look happy; that tells me that the soul is well."

"Oh, always well," and an indescribably rapturous expression flashed over her face.

"Oh yes, little Bessie; I had almost forgotten the child, haven't been there for a week; and the good little tailor; he will think we have neglected him. One more hug, pet, and pick up the roses; good by, wife," and leaving a kiss on two pairs of lips, he put on his hat and went out.

CERTAIN RIGHTS.

A correspondent takes the ground that because an employer will not allow his employees to leave their work to attend church on secular days, he is interfering with their religious freedom and is a public criminal and an enemy to human progress. He seems to be one who is quick to see his liberty assailed but never observes when he encroaches on the liberty of others. Now if the employer referred to must let off one hand, all the others may demand the same favor, and as a consequence the workshop must be closed. If he refuses, it is a blow at our religion, say the employed, but if they go away it is not a blow at his religious liberty? The employer may be a Protestant, and as yet entitled to his belief. He may regard Good Friday only as a secular day. His contracts demand that he shall work on every secular day to fulfill them. He may employ Catholics who would scruple to work on a day regarded as holy by their church; they have an undoubted right to regard it, but the question then arises, at whose expense shall this day be kept holy? At the expense of the worshipped or of the employer who does not regard it as holy?

If we say that the employees may leave at their discretion, then the employer's rights are invaded. If their religion is worth what they claim, they should make the sacrifice and not their employer. The genius of our free institutions demands that every one has the right under the laws to pursue his business, his pleasure and his devotions in his own way, but it does not demand that he shall lay others under contribution for his pleasure, his profit, or his growth in grace.

That religion is the development of self-government there can be no doubt, and that it is essential to the stability of the republic is equally true. But the union of church and state would be one of the greatest calamities. Whether Catholicism or Protestantism, or Mormonism or any otherism conserves our institutions is of no consequence in this issue. The devotee must determine the degree of his fervency, and then pursue it without trenching on the rights or the claims of others. He who does this, proves his sincerity, but he who cries Intolerance, because others will not lend him their aid, is himself an intolerant bigot.

WANTED—An experienced hand to run a Wheeler & Wilson sewing machine. Parties having sewing machines, and desiring work, can obtain it at the store of A. Cummings, No. 147 Main street, Woburn.

DR. MARCH'S LECTURE—The opening lecture of Dr. March's course was given Thursday evening. The unpleasant weather undoubtedly prevented many from attending, but the audience was quite large notwithstanding. Dr. March in commencing gave an interesting synopsis of his travels by ship, camel, horse & mule, through the hot sands, the chilling snows, over the mountains, and through the vales and across the plains. The subject of the first lecture was "Spain and the Pyrenees." Entering the country at Barcelona, he described in a graphic manner the people, the customs and the sights in that strange land. Seville and Madrid were described. Dr. March found the people very much unlike the idea he had formed of the Spanish, and describes their appearance as not unlike the appearance of men in other countries. He did not witness a bull fight, but made the acquaintance of some professional matadors. Everywhere he travelled he found English speaking people, and American articles were advertised on all sides. He spoke encouragingly of the future of Spain. The lecture was very interesting. To-day (Friday) being pleasant, we hope to see a full house this evening.

F. V.—The first regular meeting of the fence viewers was held on Tuesday evening at 8 P. M. President Allen in the chair, and the other members chairman. It was remarked that if fences must come, we to him that brought them (to the tune of two dollars a day). This did not cool the ardor of one client, however, and he insisting of his right, the board gave due notice that it would be found on his fence on Saturday at 9 A. M. A full report may be anticipated.

BIBLE LAND—The entertainment given in the Baptist Church last Friday evening, was very instructive as well as interesting. The lecture, descriptive of the different scenes, delivered by Mr. Townley in his own peculiar and pleasant manner, added much to the whole. That portion which related to the Rosetta stone was peculiarly fine. After exhibiting scenes from Bible lands, those of a local and amusing character were introduced for the edification of the little folks.

28—In accordance with our suggestion relative to the lockup nuisance, the proper authorities have erected a high board fence around the street at which the children of the grammar school used to hold sweet converse with the unclean spirits in the lockup. The idea of the fence is good, so far as it goes.

28—Last Wednesday, strange as it may seem to those who have often wondered why the flag doesn't fly on our Common on great days, the flagstaff was surrounded with the star spangled banner in memory of the gallant dead of 96 years ago.

ONE, TWO, THREE—The fire bell struck three times on Tuesday night, but that was enough to start our firemen on the road to Winchester. They went but a short distance, however.

ACADEMY—The Warren Academy commences next Monday. See advertisement.

28—Circus coming May 19.

THE GALAXY for May is at hand. It contains an engraving of Dona Platt and a large amount of good reading matter. "Lady Judith, a Tale of Two Contests," is continued. "The Campaigns of Robert E. Lee," "The neither side of New York," "Cupido," "Overland," "Knowledge," "The Duke of Cambridge," "A Night in the Wilderness," are among the other articles.

SCRIBNER'S MONTHLY comes freighted with good things. It contains for a frontispiece an engraving of George McDonald, also another of Asher Brown Durant over the title "Living American Artists." "The wonders of the Yellow Stone," "Reminiscences of Charlotte Bronte," "The Moabite Stone," "Aye-Aye," besides other interesting contributions.

THE ATLANTIC MONTHLY is a first-class magazine, and comes to us every month with fine articles upon different topics. The number for May contains "The Descent of Fire," "May-flowers," "Organization of Labor; its Aggressive Phases," "The Campbells are coming," "Vox Populi," &c. Published by James L. Osgood & Co., Boston.

THE MAY NUMBER of Peters' Musical Monthly is out, for which the publisher asks the modest sum of 30 cents. Send 30 cents for a sample copy, or \$1 for the January, February, March and April numbers, and we are confident you will think us for recommending it. Address J. L. Peters, 559 Broadway, New York.

THE AMERICAN AGRICULTURIST is one of the best magazines of the kind published. It contains short, interesting and instructive articles upon the subject of Agriculture in all its branches.

MASONIC DEDICATION—The new Masonic Hall, 173 Main street, Woburn, was dedicated in ample form to the uses of freemasonry, by W. G. M., William S. Gardner, assisted by D. W. G., Chas. Levi Woodberry, W. G. S. W., Samuel C. Lawrence, W. G. J. W., Charles W. Moore, W. G. Chaplain, Rev. C. H. Titus, W. G. Tres, John McClellan, W. G. Marshal, W. T. Grammer, P. W. G. M., William Parkinson. The dedicatory services were interesting and impressive, and the address of the Grand Master full of the principles of friendship, mutuality and brotherly love. After the exercises were concluded, the brethren adjourned to Still's and partook of a collation.

IN MEMORIAM.—**Mr. EDITOR**—As, one by one, the years and good of our vicinity, are borne from us, on their returnless way, how solacing for surviving friendship, to find in your columns, place for memorial words of the dear departed!

Episcopal Church Service will be held every Sunday evening in Lyceum Hall commencing at 7:15 o'clock. Next Sunday evening Rev. Mr. Huntington Jr., son of Bishop Huntington, will preach.

THE NEW DEPOT—We do not intend to be ahead of the news as we think a contemporary was in giving a description of the new depot as it is to be. All we can say is that the purchase of the land has not been finally consummated, so far as the transfer of the papers are concerned, but that will be done as soon as some difficulties in the way are removed. The depot when built will be upon that lot of land. A plan of the depot has been drawn, but whether or not it will be adopted remains to be seen. We learn that a petition is in circulation to have a town meeting called to consider this depot question again. If these petitioners desire to delay the erection of the depot they may, by keeping up an interminable discussion about it, accomplish their purpose, but as to having it located in any other place they may as well keep quiet, as it will not amount to anything.

The depot when built will be upon that lot of land. A plan of the depot has been drawn, but whether or not it will be adopted remains to be seen. If these petitioners desire to delay the erection of the depot they may, by keeping up an interminable discussion about it, accomplish their purpose, but as to having it located in any other place they may as well keep quiet, as it will not amount to anything.

WANTED—An experienced hand to run a Wheeler & Wilson sewing machine. Parties having sewing machines, and desiring work, can obtain it at the store of A. Cummings, No. 147 Main street, Woburn.

HOUSEBREAKING—The residence of Major Bancroft was entered in the day time of Saturday last, and some valuable goods were probably stolen. The thieves were probably boys.

28—One day last week the son of O. J. Hart was badly bruised by falling beneath an express wagon and a baggage car, as the former was backing up for a load.

The 19th at Lexington—The 96th anniversary of the Battle of Lexington was celebrated in a becoming manner in the historic town on Wednesday. At sunrise the echoes were awakened by a section of the Malden Battery, under Lieut. W. B. Patterson, firing a salute of thirty-seven guns. At six o'clock a battalion of grotesque soldiers paraded under the command of C. T. Worthley, and showing themselves in a few well-chosen words. The dedicatory prayer was then offered by Rev. A. B. Muzzey of Cambridge.

The battle was by Dr. George B. Long, of Salem. He began his remarks at considerable length to the history of colonial and revolutionary days.

The population of the colonies, at the time when they made their stand here for civil freedom, and dreamed with Samuel Adams of a continental nation, was less than 3,000,000; that of Massachusetts was less than 300,000; that of Boston about 13,000.

The valuation of all the property of Massachusetts, including the Province of Maine, was about \$20,000,000 only. No bridges spanned the Connecticut and Merrimack, and a bridge to Easton had not been projected. The entire population of that section of Massachusetts through which the British troops passed on their way to Concord, and the territory of New Hampshire, with only hands, was less than five thousand. The entire American army employed during the revolutionary war, when opened at Lexington, was less than twenty thousand men. Referring to the time when he had formed of the Spanish, and describes their appearance as not unlike the appearance of men in other countries. He did not witness a bull fight, but made the acquaintance of some professional matadors. Everywhere he travelled he found English speaking people, and American articles were advertised on all sides. He spoke encouragingly of the future of Spain. The lecture was very interesting. To-day (Friday) being pleasant, we hope to see a full house this evening.

BIBLE LAND—The entertainment given in the Baptist Church last Friday evening, was very instructive as well as interesting. The lecture, descriptive of the different scenes, delivered by Mr. Townley in his own peculiar and pleasant manner, added much to the whole. That portion which related to the Rosetta stone was peculiarly fine. After exhibiting scenes from Bible lands, those of a local and amusing character were introduced for the edification of the little folks.

At half past nine, Hancock Engine Co. No 2, Capt. Geo. Simonds paraded 40 men with the Germania Band. At 11 o'clock a procession was formed by Col. John W. Hudson, chief marshal, assisted by Major Jones F. Capelle, Capt. Wm. Plumer, Lieut Samuel E. Chandler, Lieut Geo. E. Muzzey, Lieut. Jarvis W. Dean. Preceded by the Germania Band, the procession moved in the following order:—Section of 32 Battery Lieut W. B. Patterson, Hancock Engine Co. No. 2 Capt. Simonds, Public schools, 300 scholars. Com. of Arrangements, Building Committee, Committee of Young Men, President, Orator and Chaplain of the Day. Distinguished guests, soldiers of 1812, soldiers of 1861-5, town officers and citizens. There were about 600 in the procession, which moved at 11:15 and after marching around the Common proceeded to the new memorial Town Hall.

The building is situated on the main street, where once stood the old Lexington House, a famous hotel in its day, and where more recently was situated Dr. Dio Lewis' school, which was burned a few years ago.

A—The structure is of the French style of architecture, two stories high, with a double low roof. The building is 98 feet long and 59 feet wide, built of brick, with freestone trimmings. The offices of the Selectmen, Town Clerk and

the Post Office are upon the first floor in front, and in the rear the "Memorial Rotunda," an octagonal apartment, 19 feet square, is entered. The Memorial Rotunda connects immediately with two corridor recesses, each 19 1/2 by 8 feet, the rotunda and corridor recesses being arranged as one apartment. In the angle of this apartment are four marble pedestals, intended to receive four life-size marble statues, two of which are nearly completed, and will be placed in position in a short time.

The statue to be placed on the left from the entrance is "The Minute Man of '76," and in the corridor recess to the left is a tablet of Italian marble, framed in beautiful red-veined Lishon marble, on which is the following inscription:—

"The Pledge and its Redemption."

A WORD TO THE VOTERS.

Woburn is called upon to vote next Tuesday whether they will prohibit the sale of ale, porter, strong beer, and lager beer. Last year, in a small vote the sale of these "innocent" drinks was legalized, and with what result? Let our police records testify. Under cover of these, the vilest compounds are sold, and the worst places maintained in open violation of all that is refined or decent. Last Tuesday in a so-called oyster saloon near Main street, a boy just entering his teens was officiating as bar-keeper, and a scene was enacted which was a disgrace to humanity. Why cannot such places be broken up? Because respectable citizens will vote that beer may be sold, and it can not be proved that anything else is offered. Monday night two men lay drunk on the sidewalk near Main street, so insensible that the police were obliged to procure a wheelbarrow to transport them to the lockup. One morning this week, six persons were in the lockup for drunkenness. During last year one hundred and twenty-eight people were arrested for drunkenness, and this town paid for police service \$713.24, the greater part of which was necessary because of intemperance.

We believe the time has come to move forward in this matter. That sober people have some rights that should be respected. That our law, weak as it is, should be made to protect us from the blood-thirsty attacks of these vampires who are engaged in the sale of liquor, and attempting to degrade society, demoralize our young men, and spread ruin all around, that they may live and grow fat. Some people talk about having one or two respectable places kept, and killing off the low places. But where will you find a man to keep such a place? Where is there a man who keeps a bar, and is proud of his profession? If he is respectable when his begins to lose soul, for the man who does not respect himself others will not respect, and the man who sells liquor is daily called on to do things at which his manhood cannot but revolt. Temperance societies and moral sission can only permanently effect the young, and if beer shops are allowed to keep their temptations before them, our only help is the law. It is time our people were aroused. We ask all parents who have sons liable to be ensnared by the incipient runshops that infest Main street in the very heart of our town, to come up on Tuesday and vote that beer shall not be sold here. We call on all who desire to lighten the burden of taxation, to help stop the expense entailed on us by intemperance, by voting that no more ale be sold here. We appeal to all lovers of good order, and the fair fame of our town to place themselves against the giant evil which threatens to rule over us, and vote that no more lager beer shall be sold here. If you do this, our town can be cleansed of much of its impurity, for we have a police that can neither be coaxed, bribed nor frightened from doing its duty, and instead of drunkenness increasing one-third as it did last year, a great reduction could be hopefully looked for.

Rally, good citizens, and place yourselves on the side of good order. The hour you shall spend at the Town Hall next Tuesday afternoon is one you owe to yourselves and to your fellow-citizens. Don't let business or pleasure detain you. You will find that it will pay better to go than to stay away.

SCHOOL COMMITTEE.—At the meeting of the Board of School Committee last Friday, it was voted that the graduation exercises of the class of 1871 of the Woburn High School be held at the Schoolhouse instead of in Lyceum Hall. It was voted to place a piano in the High School house, and Messrs. Townley, Pollard and Emerson, are a committee to make the purchase. A communication from the Grand Army was received inviting the schools to take part in the exercises of Decoration Day. It was referred to Messrs. Pollard and Emerson with full powers. The spring recess of all the schools is to occur on the first week in May, beginning next Monday.

SCHOOLHOUSE BURNED.—The Cambridge street Schoolhouse was burned by an incendiary last Sunday morning. The fire was discovered at half past four and the alarm given in Cummingsville, No. 3 went over, and an hour later, the steamer hook ladder companies turned out. Nothing was saved, and the firemen only played on the ruins. A reward of \$300 is offered by the Selectmen for the detection of the incendiary. There were thirteen scholars attending the school who will be provided for, by the Superintendent of Schools. The building was valued at \$1500 and the contents \$200. No insurance.

SUICIDE.—A telegram from Washington, D. C., was received in Wakefield last Wednesday, announcing the sad intelligence of the death of Mr. O. S. Moulton, formerly a citizen of that town. Mr. Moulton's death was an act of self-destruction by cutting his throat in a fit of temporary insanity. Mr. Moulton was well known as an instructor of the art of penmanship, and formerly had classes in Woburn. He has recently held a clerkship at Washington.

Last Tuesday evening Hon. Horace Conn was seized with a severe attack of the colic, completely prostrating him. He was taken to Dodge's drug store, where obtained temporary relief, and was then taken home.

Rev. Mr. Eastman will preach a temperance sermon at the Methodist church to-morrow afternoon.

SELECTMEN.—At a special meeting of the Selectmen of Woburn, held Wednesday evening, the following appointments were made to serve for one year from May 1, 1871:—

Engineers.—Loren W. Perham, John Gilcrest, Joseph Linnell, G. F. Jones, Lorenzo Winship, Charles Porter, William C. Tay.

Police.—John W. Day, Chief, Edward Simonds, M. L. Richardson, J. D. Taylor, J. C. Plummer, Sewall Taylor, Lorenzo Winship, L. T. Johnson, George G. Osgood, John S. Wheeler, John Gilcrest, E. J. Mann, Ward L. Dennis, Jacob Lincoln, E. K. Willoughby.

Special Police, without pay.—Alva S. Wood, James Mosher, Joseph McIntrire, Warren Wade.

Night Watchman and Superintendent of Public Lamps.—M. L. Richardson, Public Weighers and Weighers of Coal.

Measures of Mason Work.—S. F. Thompson, J. C. Whitehead, Stephen K. Richardson, Alva S. Wood, John Johnson, Horatio S. Weymouth, L. W. Perham, Clarence Littlefield, Ambrose Bancroft, E. J. Mann.

Measures of Mason Work.—S. F. Thompson, Josiah Hovey, John R. Tracy.

Measures of Weights and Measures, and Examiner of Charcoal Baskets.—John W. Day.

Measures of Upper Leather.—Marcus Eaton, Granville Parks, Mark Down, J. O. Cummings, Charles H. Harrington, T. F. Page, Frank Cummings, Parker Eaton, A. B. Wyman, F. C. Parker.

PSYCHOLOGY.—Prof. Cadwell is announced to give an entertainment in Lyceum Hall, on Thursday and Friday evenings, May 4th and 5th. The Lynn Little Giant says: "One of the most wonderful attractions that ever visited this city is Professor Cadwell's exhibition of psychology and mesmerism, at Music Hall. His control over his subjects, holding them physically and mentally under perfect subjection to his will, is really marvellous. That it is a wonderful science, those who have tested it thoroughly are fully convinced. We hope to be able to read Dr. March's travels to us, his former travels, twelve years ago, snatching allusions to his native land were frequently met; but now, all is changed, and America is held in high esteem wherever he went."

DR. MARCH.—The Rev. Dr. March is so full of the subject he may be treating, that ordinary language fails him, and could he have recourse to a sort of oratorical short hand, he might then have a better prospect of success in his attempt to communicate his thoughts. His rapid enunciation made it difficult at times to follow him, while the beauties of his rhetorical pictures were such that we could not but regret the panorama moved so swiftly. It was as if we were journeying through a delightful country at a mile a minute, but our disappointment in being only able to catch a glimpse of the landscape was softened by the hope that some day we might receive the portrait by the old fashioned and more moderate conveyances. We hope to be able to read Dr. March's travels to us, his former travels, twelve years ago, snatching allusions to his native land were frequently met; but now, all is changed, and America is held in high esteem wherever he went.

WOBURN.

IN OUR HEAVENLY FATHER'S KEE-
PING.

BY J. M. FLETCHER.

Father, in thy gracious keeping,

How divinely blest are we,

Day and night awake or sleeping

We are still upheld by thee;

Wakeful thought and peaceful slumber,

Morn and eve thy goodness prove,

Every heart beat that we number

Shows thy presence, power and love.

Often are we weak and fritful,

As we are easily repelled,

Often are we quite forgetful

Of thy mercies all divine,

But thy love is never withdrawn,

And thy blessings, oh, how free!

Every path is bright and golden

Leading heavenward, Lord, to thee,

Low in abiding kneeling.

We thy gracious will would know,

Lord, if we could but learn

Would we like a river flow,

Our world mortal vision measure

Love so boundless and so free,

Man would find his trust pleasure,

Lord of Light, in serving thee.

Selected.

The Wonderful Clock.

During the summer of 18— there might have been observed loitering about the Tuilleries, a spare, shabbily dressed man, past the prime of life, restless and disconcerted in his movements, but wearing, in spite of his humble garb, an air of faded respectability and character.

He was a decayed Spanish nobleman, Don Mosen Chavari by name, and, his one thing noticeable about him, was his

persistence in endeavoring to obtain an audience of the Emperor.

Foche took in the situation at a single glance.

Besides Napoleon, there were five

persons in the room. Four of them were

officials of the palace—chamberlains and

armed valets—who frequently attended

when he gave audience, to prevent

attempts at private assassination.

The fifth was a man habited in a com-

mon workman's blouse, standing apart from the others, in a respectful attitude, and holding in his hand a workman's red cap.

It needed but a glance to assure

Foche that this person was none other

than the old familiar goblin of the Tuilleries—Don Mosen Chavari.

But how metamorphosed, (His hair, formerly

gray, was dyed to a glosy blackness;

his face was dispeled of his mustaches and pointed beard, and his once smooth

hands were roughened as though by

exposure and toil.

At his side stood a

large lacquered table, supporting an

object upon which Foche's attention was

immediately fixed. This was seen

at once to be an exact model of the

church of Notre Dame wrought in metal,

in the highest style of art, and serving

equally as the case for a clock, since

when one's hopes are broken, it matters

not little where he goes; I wish a pass-

port to leave France."

"It is so delicate, Monsieur," said

Chavari, hurriedly, still keeping his finger

on the concealed spring, and waving

Foche off with his unengaged hand.

"Here is the pardon," said the Emperor,

affixing his signature to a paper as he spoke.

"I hold you responsible for

repeating the attempt, as the magnificence

of the Emperor or the last occasion had completely disarmed him.

"Parbleu!" muttered Foche, pocketing

the pistol and wiping the perspiration

from his brow.

"Allow me, Monsieur," he said, advancing to the table,

"to inspect this wonderful specimen of art."

"It is so delicate, Monsieur," said

Chavari, hurriedly, still keeping his finger

on the concealed spring, and waving

Foche off with his unengaged hand.

"Here is the pardon," said the Emperor,

affixing his signature to a paper as he spoke.

"I hold you responsible for

repeating the attempt, as the magnificence

TOWN MEETING.

The Town Meeting on Tuesday was called to order by the Town Clerk, and Hon. Horace Conn was chosen moderator. A motion was made by J. L. Parker to prohibit the sale of beer the ensuing year. On motion of Mark Allen it was decided to take the vote by count, each voter passing through the desk as his name was checked. A large crowd immediately fell into line and marched through, after which the opponents of the measure were called on to register themselves, and a few straggled through the passage. The result was 262 against 9, a marked contrast to the vote of last fall.

The matter of insurance was next presented. Mr. Allen moved that the Town insure their public buildings. N. W. Wyman thought the Town had made money by not insuring. W. B. Harris didn't believe in insurance; had none on his own buildings for the last twelve years, and thought the town had better carry it's own risks. S. Nichols said we had lost \$4,000 in schoolhouses burned; that our present houses were much more valuable than formerly; no business men in town would think of allowing his property to be uninsured, and the Town should take the same view of it. L. L. Whitney also favored the insurance project. The Selectmen were instructed to insure the public buildings by a vote of 78 to 12.

The Common was then introduced. Mr. Whitney made a motion giving the committee full power. Mr. Nichols offered an amendment, ordering the committee to put an iron fence or a granite base around the Common in its present shape, and to arrange the walks and grounds. He didn't believe there ever was an old plan and offered a dollar apiece for every man who had seen it. Mr. Whitney was opposed to doing anything that should seem to be putting the committee under guardianship. Mr. Chapman said the original plan did not comprehend a fence, but the discussion at the last meeting plainly showed that the town wanted a fence, and the committee intended, if possible, to meet that idea. Col. Grammer wanted more instructions and more money. This matter has gone so far that no one will be suited, but retaining the old triangle would, he thought, be the most satisfactory. Major Bancroft hoped the amendment of Mr. Nichols would not prevail; that Sweetser and Gardner had given an opinion that the town had a right to remove the fence. J. E. Littlefield thought the town had no such right, and doubted the statement that the lawyers referred to had given such an opinion. J. B. Winn thought it would appear strange to have a man come from Boston to tell us how to lay out the Common; he failed to see how a triangle more than a circle should deteriorate from the monument. The matter was discussed at great length, the friends of the motion offered by Mr. Nichols deprecating any removal of the fence, and even intimating that an injunction would be served on any parties attempting it. Finally Mr. Winn offered another amendment ordering the fence set in a foot, and the corners rounded, and the bill as amended passed to be engrossed. Two thousand dollars additional was voted; four more were added to the committee, making nine in all, and the "beater" will be preserved. If the committee had attended to their duty several years ago, all this trouble would have been avoided, and most people satisfied. We feel curious to know when the first step will be taken in this improvement, and doubtful if any but a member of the Converse family will live long enough to see it completed. Meanwhile the old rails make very good seats for these pleasant evenings.

Then came the matter of truants, and Mr. Pollard moved that the School Committee be authorized to place truants at a School in Lowell which is established for that purpose. John Murphy was opposed to this, he being fearful that his boy might be placed there, and their religious teachings interfered with. He thought there were too many vacations; he wanted his boys to have an education that would fit them to represent the town, and be good citizens. Mr. Pollard explained the object of the motion, and showed how the remedy was in the hands of the parents if they will endeavor to prevent truancy. The motion was carried.

The school-house matter was then taken up. Rev. H. C. Townley moved to make an addition to the Cummingsville school, instead of rebuilding on Cambridge street. J. R. Kendall amended by moving to rebuild on Cambridge street. The matter was freely discussed by Messrs. Lincoln, Pollard, Harris, Kendall, Townley, Murphy, Johnson and Parker, and it was finally voted, and \$2000 was appropriated for the purpose. The meeting adjourned at 7 o'clock.

FIRE DEPARTMENT.—The following companies of the Woburn Fire Department have organized as follows:—

Steam Fire Engine Co., No. 1.—Foreman, J. M. Phillips; Assistant, Isaac A. Howe; Clerk, A. P. Barrett; Treasurer, A. A. Ferrin; Steward, Jacob Webster.

Fire.—About two o'clock this (Friday) morning, some one set fire to Martin Dooley's house on Salem street. One of the occupants was sleeping on the first floor, and discovered in season to save the house. The fire burned through the floor and clapboards.

Dr. J. Clough of Woburn, has been elected Adjunct Professor of Institute of Dentistry and Dental Therapeutics in the Boston Dental College.

ENGINEERS.—The Board of Engineers have organized for the year by the choice of L. W. Perham, Chief, and John Gilcrease, Clerk and 1st Assistant.

SEIZURES.—The police seized liquor of Matthew Foley and Mary Madigan this week. We understand the latter has left town.

BROKEN ARM.—Mrs. Ray, living near Horn Pond Station, fell and broke her arm Tuesday evening.

ACCIDENT.—As the driver of the wagon belonging to Albert W. Mann, "smoked and dried fish merchant," was turning the corner near the store of Alexander Ellis, a bolt broke, overturning the wagon and throwing him with considerable force to the ground. Fortunately for him the horses did not run, for in falling one of his legs passed between the spokes of the wheel. He was taken into the store, where he fainted, but soon after revived.

North Woburn.

We are informed that the society known as "The Mathematician" has disbanded; the reason for so doing is not known to us.

EG.—The roosters on the Common fence last Sunday were an object of interest to fowl fanciers.

CENTRAL HOUSE ON FIRE.—About 9 o'clock, Wednesday evening, one of the servant girls at the Central House having occasion to go to her room, discovered that the house was on fire in the L. at the west end of the building. The alarm was immediately given, and after considerable hard labor the fire was suppressed. The fire seemed to have commenced in a bureau in the coo's bedroom, and it is supposed that some one having occasion to go there lit a lamp on the bureau, and the fire caught from it. The bureau and contents, owned by two of the girls, was burned, and the flames were making good headway when they were discovered. Steamer 1, and Hook and Ladder 1, were promptly on hand, and Washington 3 came over, but the fire was put out with buckets.

The central position and public nature of the house, and the critical condition of our wooden town, made this small fire an affair of considerable importance, and the excitement was proportionally great. The loss to the building can be replaced for \$50. The girls lost their clothing. We have a set of young things here, some of whom got into the house in the excitement, and stole from her a portmanteau belonging to one of the girls. The police, however, soon cleared the house of all who were not authorized to remain. Personally, we would thank these friends who offered assistance which we are glad was not required, although for a short time it seemed as if the occupants of the house would stand by the Selectmen.

On Art. 3, Voted, to direct the Selectmen to cause the public buildings to be insured.

On Art. 4, Voted, that the Committee on the Common be instructed to erect a good substantial iron fence with a granite base around the Common, within one foot of the line of the present fence, the corners to be rounded; also to grade, lay out paths and make such other improvements as they deem proper to best preserve the trees and beauty said common.

Voted, That the town raise and appropriate two thousand dollars in addition to the sum already appropriated for fixing up the Common.

Stephen Nichols, E. N. Blake, J. G. Pollard, J. P. Crane were added to the committee.

Art. 5. Voted, That the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual truants in the town of Woburn as may be convicted of that offence, and sentenced to such institution by the justice or court having jurisdiction in such cases, or having jurisdiction in such cases, and the Selectmen be authorized to make all necessary arrangements with the city of Lowell for the commitment to the Reform School established in that city, such habitual MILITARY HISTORY OF WOBURN.
WOBURN UNION GUARD.
CHAPTER X.—Continued.

Miss Etta W. Pierce, who has attained considerable fame as an authoress, wrote a song for the Union Guard. Prof. T. Breier set it to music, and it was often sung at Hall's Hill. The following are the words:

UP WITH THE COLORS.

There's night on the land of our love, and our pride,
Tis the dark hour of danger, when true hearts are
we gather to-
like the horses of war
To strike for the honor of our own native shores.
Ghosts—They're up with the colors, the old stars
ry colors,
well follow our colors wherever they wave.
Through death be impending we'll perish defending
The flag that was bought with the blood of the
brave.

The roar of the war horse, the clank of the sword,
The roll of the drums, and the gathering world
And the marching of hosts in one chorus com-
bined.

And now the wild music shroud on the wind.

Then up with the colors, etc.

Come forth to the combat! Sons of the North!
Come forth in the night of your glory and worth.
We know when the conflict is loud on the gale.
Your hearts will not fail, your hand will not flail.

Then up with the colors, etc.

Press down on the foe, like a hurricane's breath,
When black oceans shake to the foot steps of death.
Let "Freedom and Country" be ever our cry—
The work of the world is in the hands of the men that died.

Then up with the colors, etc.

Hurrah for Columbia, mother of the free,
The star of the nations, the queen of the sea.
And was to the traitor, who dares to profane
The page of her story with insult and shame.

Hurrah for the colors, the old starry colors,

Well follow our colors wherever they wave!

Through death be impending we'll perish defending
The flag that was bought with the blood of the
brave.

SHAKER GLEES, 1861.

The 22d was brigaded with the 2d
Mass., 14th, 17th and 25th New York
and 18th Mass. Vols., under Brig. Gen. J.
H. Martindale, which was the first Brig-
ade of Gen. Fitz John Porter's Division.

Gen. Henry Wilson, who had raised the regiment, and accompanied it to the field, secured the appointment of
Capt. Jesse A. Gove of the 10th Regulars
as Colonel. Col. Gove was a gentleman
of good education, and was at one time
instructor at the Military Institute at
Norwich, Vt. He was in the Fremont
Expedition to the Rocky Mountains, and
until his death rode the same horse that
carried him across the plains. He was a
thorough tactician, a good disciplinarian,
and under his command, the 22d soon
attained the first place in the bri-
gade. Col. Gove soon inspired his
officers with the feeling that there was
work before them, and the squad
company and battalion drills, with once
every other day, and brigade drill once
a week, kept the men busy. As the
weather grew cooler, the friends at home
began to think of the Guard, and boxes
of wearing apparel were forwarded to
them. At Thanksgiving, turkeys and
the usual fixings for a New England
dinner were sent.

The first day of the 22d occurred in
November, and the Union Guard sent
home fourteen hundred dollars by ex-
press, besides other amounts sent by mail.

The weather during the winter of '61-2,
at the camp on Hall's Hill, was very
mild, the thermometer on the 1st of Dec-
ember indicating 79 degrees. The fine
weather, and good position of the camp,
added considerably to the weight of the
men, and they were never healthier.—

Col. Gove issued an order about this
time that the best looking soldier in the
guard detail should be orderly for the
day. The Union Guard furnished five
in one week. Lieutenant Davis was quite
popular with the men, and they presented
him with a field glass. Private J. F.
Gleason spoke for the company; the
Lieutenant replied, "and then the band
played," and all were happy. The first
visitor from Woburn to the camp was

Mr. G. R. Gage. He was soon followed by S. K. Richardson and E. N. Blake.

The proximity of Washington made it
convenient for visits, and few northern
men visited the capitol without going out
to the camps.

As the season advanced, orders were
given to stockade the tents. This was
done by digging a circular trench the
size of the tent, and then planting chest-
nut posts four feet high, and pitching the
tent upon them. This made a warm and
roomy house. Ovens were put in the
ground in some of the tents, and others
had small stoves. The quartermaster
also put in some ovens and established a
bakery, thereby making a large saving
on the rations.

Bugles took the place of drums in the
22d while they were at Hall's Hill, and the
drum corps was abolished. Roseve
L. Bryant, one of the drummers, being
too young to go into the ranks, was dis-
charged. Jeremiah O'Sullivan was dis-
charged at the same time for disability.

The monotony of the camp was broken
one night about Christmas by the tent
of Lieuts. Crane and Davis catching fire.
The tent was warmed by an underground
furnace, and the heat set fire to some dry
evergreen on the floor, which soon com-
municated the flame to the canvas. As
is usual at home, the neighbors rushed
in and put out the fire. "Loss trifling,
no insurance."

A church was organized during the
winter by Chaplain Cramack, and all the
services and ordinances customary at
home were administered. Several mem-
bers of the Guard, who were church mem-
bers at home, joined the organization.

Prayer meetings were regularly held,
preaching on Sunday morning and
Sunday School in the afternoon, were
enjoyed by all who chose to do so. Gen.
McClellan issued an order making the
Sabbath a day of rest, and appointing
Saturday afternoon for preparation for
the Sabbath. This, and the New Eng-
land habit which many of the men car-
ried with them made Sunday not unlike
what we see in Massachusetts. In fact,
some towns do not observe the sacredness
of the day so much as did the regiments
in the winter of 1861 and 2. On the 3d
of January the Holy Sacrament was
administered, the chaplains of the 44th
N. Y., 4th Michigan, and 3d Pa., assist-
ing Chaplain Cramack of the 22d. L. S.
Champion of Co. A, and Gerardo J.
Watson of Co. F, were received into
membership by profession of their faith.
This church was kept up until the army
moved out the Spring.

(to be continued.)

ST. JOACHIM!

OF THE NORTHERN PACIFIC RAILROAD

Rapid Progress of the Work.

The building of the Northern Pacific Railroad,
began July last, is being pushed forward with
great energy from both extremes of the line,
and will be completed in 1872.

At the head of the line, the 100 miles from
the "Weyer" Grand Square and Uplift

Planoites, also the celebrated Union Makers

of the 260 miles of track, and the 100 miles
of track laying is progressing at the rate of one
to two miles a day.

The work is being done by the Chinese.

DECORATION DAY.—This occurs on Tuesday, May 30, and the arrangements for its celebration are nearly completed.

All organizations in town have been invited to participate in the march and ceremonies. The procession will form on Pleasant street, at half-past nine in the morning, and march through Pleasant, Warren, Summer and Main to the Common. There an address will be given by Col. Carroll D. Wright, of Reading. The march will then be resumed through Main and Salem streets to the Cemetery, where after depositing the graves, they will march through Charles, Main, Johnson, Franklin and Wino to the Common and be dismissed for dinner. Re-assembling at one o'clock they will go to Winchester, and participate in the ceremonies of decoration with the citizens of that town. From there, proceeding to East Woburn, to the graves in the Catholic Cemetery, and then march by Railroad street to the Common for dress parade. The Chief Marshal is Capt. Charles K. Conn; aides, Col. W. T. Grammer, Lt. Col. Cyrus Tay, Major Ambrose Bancroft, Capt. John P. Crane, and Dr. C. T. Lang. We hope the citizens will contribute flowers for the occasion, and as far as possible participate in the exercises.

TOWN vs. RAILROAD.—The case of Woburn against the Boston and Lowell Railroad was tried on Tuesday last, and resulted in a verdict for the town of \$20,958.33. The case goes to the Full Bench to determine certain questions of law. Ist. To see whether a license given by the Selectmen to move the building, and which license expired a week before the accident, binds the town and relieves the railroad. 2d. To see whether there was not such equal negligence on the part of the town and railroad, as will prevent the town from doing the railroad, having dug the hole as defendants contend by reason of the permission of the town to move the building.

PEASANT OCCASION.—The residence of Mr. John A. Bontelle, the accomplished gynecologist, was filled on Monday evening, by his neighbors and friends, who desired to congratulate him on the occasion of the 25th anniversary of his marriage. They came from all parts of the town, and the worthy couple were surprised to find themselves a part of so large a friendly circle. The evening was passed in a very social manner, and towards the close, Rev. S. R. Denner expressed the sentiments of the guests in a feeling manner, and presented Mr. Bontelle with a substantial memento of the visit.

AMERICAN NEWSPAPER REPORTER.—No publication reaches our sanctum which is more promptly or carefully examined than this one. We have a full file of the numbers in their present form, and shall be enabled to preserve them with the aid of a handsome and convenient binder made especially for the purpose, and which the publishers, G. P. Rowell & Co., New York, furnish for \$1. Speaking about the *Reporter*, it fills a space hitherto unoccupied, gives information of the greatest value to the press, and is a means of inter-communication between printers and publishers that cannot be too highly appreciated.

FIRE.—Wednesday evening, about ten o'clock, a pile of burning brush on the farm of B. F. Flagg, caused an alarm to be given. Engine No. 3 turned out promptly, and put out a stream. The steamer went over, quickly followed by Hook & Ladder No. 1, and the hand hose carriage. No. 4 came over to the center of the town. The fire was the work of some mischievous boys.

BRIDGE BROKEN.—On Monday a team going toward Stowham, broke through the last bridge opposite the saw factory. The team was uninjured. The bridge was then replastered since the accident. The town has had trouble and expense enough from the bridges at that place, one would suppose, to make the Highway Surveyors look after them a little better.

VALUABLE PRESENT.—Col. Leonard Thompson has presented the First Congregational Church in Woburn with a solid silver flagon for the communion service, procured at the cost of \$105. It was used for the first time last Sabbath, Rev. Mr. Denner in a few appropriate words presenting it in the name of the donor, and accepting it for the church.

THE COMMON.—The committee having the Common in charge, are busily arranging their plans for future action, and they will hold a meeting next Monday evening to perfect their arrangements. Meantime the routine continues unabated, and a pile of boards used by the concreters is tastefully displayed at the northeast corner.

BROKEN.—Last Saturday about six o'clock, two young fellow in "sundown" carriage drove down Railroad street, and turned over at the corner of Main. The roof of their carriage was broken off, but they gathered up, and proceeded at a fast gait up Main street under bare poles. Too much whiskey was the matter with their amusements.

REV. Henry Morgan, the indefatigable missionary among the poor of Boston, will give his lecture on "Fast Young Men," Lyceum Hall, Woburn, on Tuesday evening next. It is everywhere highly spoken of, and there should be a full house to hear this popular lecturer.

NEWSPAPORIAL.—Edgar Marchant, Esq., of this town, has purchased the Norfolk County Register, published at Randolph, and resumed his editorial labors. He has always been successful in that field, and we trust his present venture may not be an exception.

NEW SCHOOLHOUSE.—Monday evening, the Selectmen and School Committee in convention, appointed Messrs. John Cummings, John Johnson and E. N. Blake, a committee to rebuild the schoolhouse on Cambridge street, on the site of the one burned April 23.

SUNDAY TRAIN.—Those who wish to hear the concert of the Handel & Haydn Society at Music Hall Boston next Sunday evening, can do so, and return to Woburn at 11:15 P. M. The train will leave Woburn at quarter past six in the evening.

"OUR"—We have received "Our Musical Almanac for 1871 from W. H. Boner & Co., Philadelphia, containing catalogue of the music published by them.

Beautiful weather to-day.

THE NEW YORK CIRCUS.—This unequalled establishment will exhibit in Woburn on Friday, May 19th. Its merits can be estimated by the following notice from the *New York World* of April 8th:

There is no more attractive place of amusement in the metropolis for a family to visit than this well-ordered establishment, with its masterly and artistic displays of equestrian and aerial scenes in New York, and the farewell programme presented is unusually extensive and novel. The superb riders, the daring gymnasts, the brave acrobats, and the funny clowns will revel in their varied specialties, and the wonderful "Cynocephalus," will exhibit the marvellous equine and human performances. The same troupe that has excited so much admiration in New York the past winter, will comprise the company of Mr. Lent's circus during its summer campaign.

The advertisement in our paper will furnish the reader with the details in regard to the attractions presented by this circus.

PROF. CADWELL.—This wonderful psychologist has given five of his unique entertainments in Woburn, closing with Wednesday evening. He has had a large number of subjects on which to exercise his peculiar control, and has given entertainments which have been very amusing and entirely satisfactory. The power he exercises over some of them is perfectly wonderful. Whatever the effect is to the spectators we cannot say, but to the spectator the effect is one of intense amusement, and the person who could see that "show" and not laugh, we would despair of ever pleasing. We learn that Prof. Cadwell will soon visit North Woburn, and also before long go to Winchester.

DANCING.—Russ B. Walker's dancing school closed with a children's ball, in Lyceum Hall, on Tuesday evening. The young masters and misses seemed to enjoy themselves exceedingly, and the manner in which they went through the figures was a credit to their teacher. At the close of one of the dances he said: "Children, when you get to be old, and are grandfathers and grandmothers, I want you to remember that when you were very young you went to a dance with fifty boys and girls who had had but three weeks' instruction, and went through a military dance without a single mistake."

A LEGAL POINT.—If the County Commissioners had a right to lay out a road over the common ground which lay between the southern boundary of Dr. Plympton's land and Pleasant street, did they not also have a right to continue their road across the north-east corner of the Common from Pleasant street to Main street? If they have no right to cross the Common at that point, did they not also have no right to cross the land between the Unitarian and Baptist churches?

CORRECTED.—List of officers of Woburn Lodge 106, L. O. G. T.: W. C. T., B. F. Bellows; R. H. S., Addie Page; L. H. S., Jenny Brown; W. T., Mrs. E. Stockdale; W. S., J. H. Winn; A. S., Mrs. Julia Winn; W. E. S., Alber Vye; W. T., Treas. Thomas Hevey; W. Chap., R. B. Fraser; W. M., R. F. McKeon; W. D. M., Margaret A. Cutler; W. L. G., Eulia Farrington; W. O. G., E. Taylor; P. W. C. T., John K. Murdoch.

East Woburn.

BRIDGE BROKEN.—On Monday a team going toward Stowham, broke through the last bridge opposite the saw factory. The team was uninjured. The bridge was then replastered since the accident.

THE COMMON.—The committee having the Common in charge, are busily arranging their plans for future action, and they will hold a meeting next Monday evening to perfect their arrangements. Meantime the routine continues unabated, and a pile of boards used by the concreters is tastefully displayed at the northeast corner.

BROKEN.—Last Saturday about six o'clock, two young fellow in "sundown" carriage drove down Railroad street, and turned over at the corner of Main. The roof of their carriage was broken off, but they gathered up, and proceeded at a fast gait up Main street under bare poles. Too much whiskey was the matter with their amusements.

THE DIRECTORY.—The Committee of Arrangements for the May Day Festival, in behalf of the Hancock Congregational Society in Lexington tender their sincere thanks to their numerous friends for donations of money and articles of value, and for their generous patronage, which contributed to make the Festival a success.

A POMANDER.—The annual meeting of Engine No. 3, occurred last Monday, the following officers were chosen: Foreman, Charles E. Taylor; 1st Assistant, Wm. C. Baker; 2d do., Philip McLaughlin; Clerk, J. B. Streeter; Treasurer, James Maguire; Steward, John Thornton.

THE SLACK WORK.—The slack work in the tanneries gives leisure time which is being improved (?) by some of our young men in getting tight. Trying to keep out of Day's hands, gives them considerable excitement.

THE CHURCH.—Some idea of the size of the Methodist Church in this country, may be learned from the fact that an assessment was recently laid on all the churches to meet a debt of \$250,000, and the portion of the Woburn church was only \$15.

ACCIDENT.—Last Friday morning Mr. Stephen Skinner, 1st, was presented to the children from playing with it, took the can to the back yard and dropped lighted shavings into it. The powder exploded, burning his right hand severely, also throwing a small quantity into his eyes.

THE CHURCH.—Some idea of the size of the Methodist Church in this country, may be learned from the fact that an assessment was recently laid on all the churches to meet a debt of \$250,000, and the portion of the Woburn church was only \$15.

THE CHURCH.—The first hand-organ of the season appeared under our windows at 8:30 A. M., on the 11th of May, and only played once.

APPOINTMENT.—Col. W. T. Grammer, of Woburn, has been appointed Harbor Commissioner by the Governor and Council.

THE LADIES.—The Ladies will be interested in reading in what manner Messrs. Ide Carter & Co., of Boston are prepared to administer to their wants.

THE SUNDAY TRAIN.—Those who wish to hear the concert of the Handel & Haydn Society at Music Hall Boston next Sunday evening, can do so, and return to Woburn at 11:15 P. M. The train will leave Woburn at quarter past six in the evening.

"OUR"—We have received "Our Musical Almanac for 1871 from W. H. Boner & Co., Philadelphia, containing catalogue of the music published by them.

Beautiful weather to-day.

Central Square in Woburn—Where is it?—Central Square may be found on the horse railroad line about one mile north of the Center Village. It has the tallest liberty pole in town, erected at the expense of its own citizens, with its name fully marked thereon, and the Square includes a territory of about half a mile around said pole. Its early settlers were among the first in the town. They were mostly farmers of the first class, for that early day, and nearly all bore the name of Wyman; hence Wyman's Lane, now Wyman Street. Two of this name, viz: John and Francis, however, were known, and set up the first tannery ever known in our town. This business they followed as their occupation, near the center of this Square, for years. They also were great landholders, and nearly all who bear the name in this country are their descendants. Iron ore was found and refined here to some extent, on the estate of the late Abel Wyman and others. The citizens of this Square were industrious and patriotic, and this soil was stained with the blood of the first and only person from this town who fell defending the rights and liberties of his country at Lexington and Concord, April 19, 1775. (Daniel Thompson lived in the house now owned by Mrs. John L. Richardson.) Here our first Baptist Church commenced their first formal worship, in a private dwelling fitted up for their accommodation, and occupied by Capt. Benjamin Edgell, with Mr. Green as their leader; now they fill a prosperous and popular situation in our town.

In the last 50 years the principal business of this Square has been the manufacturing of boots and shoes. There has been also blacksmiths, harness makers, painters, masons, butchers, wheelwrights, &c., carrying on their business here. We have had two stores, and two public houses were kept here, and this being the half-way stopping place between Boston and Lowell, there were more than 100 horses and more than 12 stages stopped here daily. These times have gradually changed; but the citizens have remained stable and steadfast to law and order, meaning to do by others as they would that others should do by them. They always seemed to stand before the public in such a manner as to lead the learned counsellors in law, in the center village of our town, with some of their profession in the adjoining towns, to bring their law suits before this Square, and the court of law has been established medical correspondents in each town, and from the one in this town appears the following, under the head of the causes of typhoid fever in this State: "I had last fall two fatal cases of typhoid in the same house, where the water came from a cistern exposed to contamination from a leaky sink drain. At the same time the vault was overflowing, though not in a position to make it probable that its wash affected the cistern. They died of distinct blood poisoning, but the other members of this family were not affected. The voice of Friendship invites you to a social gathering in our humble tribune of our respect and affection. I do now, in the behalf of the class, present you this writing desk. Please accept this as a token of our regardfulness, and our due appreciation of our truthfulness, both as teacher and pastor. While engaged penning Divine thoughts, may God's influence overshadow you to make your penning of them a glorious work. May the pen of inspiration sketch the instructions true which you have imparted in the Sabbath School. May this class and teacher be but a type of that happy gathering with Christ as the Great Teacher. May your spiritual energies be so softened by God's love, that you may be a true representation of Christ's glorious image. May a long life of increased usefulness be yours, and you be guided and encouraged by the Christian's Star of Hope, which rises never sets, and ultimately receive your reward in joys that never end.

Mr. Bell.—The members of your Bible class, a number of whom are here, invite you to a social gathering in our humble tribune of our respect and affection. Mr. Bell.—The members of your Bible class, a

MILITARY HISTORY OF WOBURN.

WOBURN UNION GUARD.

CHAPTER X.—Continued.

On Saturday, Jan. 2, the brigade was started by the report that private Geo. Booth, of the 18th Mass., had committed suicide. He was a coward, and his fears so worked upon him that he dreaded a battle at the certain means of his death. He lost his ambition, if he ever had any, would not do his duty, and becoming sick applied for his discharge. It is a long story, this getting a discharge, and the delay to him was more than he could bear. He meditated suicide as the remedy for his trouble. One night while on picket guard, he cocked his rifle, laid down with it, the muzzle resting under his chin, and a string tied to the trigger he fastened to his foot; he went to sleep in this position, expecting that if he turned in his sleep the rifle would be discharged and he never wakened. He was disappointed in this, however, for when he turned the rifle was thrown one side, and although it went off he escaped unharmed. One Sunday he went into the "dead tent" of his regiment, hung his piece on a nail in the tent-pole, the trigger resting on the nail, muzzle down. He then kneeled down, seized the gun by the muzzle, and pulling it was discharged, the shot passing through his body and lodging in his cartridge-case. He belonged in New Bedford, where he had a wife and three children. His body was sent home. His Captain had received the discharge of the man, and would have given it to him on that day.

One evening the regiment was attracted to headquarters by the music of the band. After several pieces had been played, Lieut. Col. Griswold came out and invited the drum major, M. S. Pike, into the tent, and there presented him in behalf of the regiment with a splendid baton, silver head, rosewood staff, and gold tassel cord. The head is surrounded by a zone of thirty-four stars, on one side the U. S. coat of arms, and on the other the arms of Massachusetts. It is inscribed "22d Mass. Reg. Monstrum." Major Pike was well known as a vocalist, and a member of the old "Harmoneons." He was a great favorite with the band and with the regiment.

The following statistics in regard to Co. F. were collected by J. F. Gleason, a member of the company:

The tallest member is 6 feet, 1 1/2 inches in height. The shortest member is 5 feet, 2 inches. The average height of the company is 5 feet 7 1/2 inches.

Born in Woburn, 9; in Massachusetts, 55; in New Hampshire, 11; in Maine, 6; in New York, 1; in Ireland, 15; in Canada, 2; in England, 2; in Nova Scotia, 2; in New Brunswick, 2; in Newfoundland, 1.

Born in the United States, 76; in foreign lands, 24.

The following occupations are represented in the Guards:—Merchant, clerk, teamster, shoemaker, blacksmith, printer, carpenter, teacher, currier, operative, tailor, mechanic, book-binder, machinist, student, cabinet-maker, sash and blind maker, stone mason, potter, painter, tailor, stair-builder, laborer, morocco dresser, barber, fisherman, sailor, drumer, rope maker, carter.

The following items may be interesting to the female friends of the company: Married, 43; single, 57. Blue eyes, 61; black, 9; grey, 20; hazel, 10. Brown hair, 59; black, 19; light, 16; auburn, 4; gray, 2.

The following styles of whiskers are worn:—Full beard, 13; full beard without moustache, 2; side whiskers, 5; goatees, 7; goatees and moustache, 17; moustache, 2; a la McClellan, 9; clean shaved, 35.

There was but little snow on Hall's Hill that winter. On one occasion, about two inches fell, and the men made a hand-sled out of some boxes, and coasted down hill, an incident probably never before witnessed in that part of the world.

The orderly sergeant of Co. F. was William R. Bennett. He had taken a great interest in the company ever since its formation, and in the discharge of his duties while he had been attentive to the interests of the service, he had secured the affection of the men and the respect of his superiors. The idea of giving him a testimonial having been first broached to the men, it met with their approval, and a sum of money was raised to purchase a watch. A committee of the subscribers visited Washington, and procured a fine American silver hunter watch, made at Waltham. It was a very neat affair, and engraved as follows:—

PRESENTED TO
SERGT. W. R. BENNETT,
BY THE
WOBURN UNION GUARD,
January 16, 1862.

Sergeant Bennett was ignorant of the honor intended for him, and after dress parade, the company instead of breaking ranks formed in a hollow square in front of his quarters, and private John F. Gleason stepped forward and addressed him in behalf of his comrades in the following words:—

SERGEANT BENNETT:—We are all aware that the office you hold is, from the nature and variety of its duties, a difficult one to fill. At "reveille" those duties commence, and they occupy your constant attention until "taps" warn you to rest. You have performed those duties with fidelity and impartiality which you have performed those duties. Brought by him in contact with each of us we had excellent opportunities for observing your soldierly conduct and manly bearing. It is therefore with the greatest pleasure that I, in behalf of the Woburn Union Guard, present you this testimonial. It is, Sir, a token of our respect and esteem. Hence it is a pledge of our friendship. May those hands in their passage around the dial note only pleasant hours. When the war is ended, and an honorable peace secured, may you return to the "brave ones at home," and exhibit with conscious pride as you may, this proof of your soldierly conduct.

Of resolution shall be the hollowed light
And your full heart be a sphere of bright emanation.

And may this token serve to remind you of the friendships formed, and scenes enjoyed in the army of the Union.

The Orderly Sergeant replied as follows:—

OFFICERS AND FELLOW SOLDIERS:—I return to you my sincere thanks for this beautiful and timely present. Words cannot express my heartfelt gratitude to you. The respect and brotherly feeling you have always shown towards me will ever be remembered. Gentlemen, my heart feels more than my lips can express, but I will endeavor to serve my country, my officers, and you, honorably,

faithfully, and to the best of my ability. May my good words prove as many and as true as those enclosed in this beautiful token.

A member of the committee then volunteered the following:—

COMRADES:—I hope you will not accuse me of unbecoming levity in saying, that having watched the movements of our friend for some time, I am convinced that the main spring of his action is a love of money. Whenever any duty has devolved upon him he has "been and done it," therefore, before we have done with Bennett, I propose three rousing cheers for the Orderly Sergeant.

The cheers were heartily given, and the men went to their quarters. In the evening Corp. F. W. Thompson kept "open house" at the company headquarters, and the non-commissioned officers and many of the privates partook of his hospitality. (to be continued.)

Removal.

IN consequence of the great increase in my business have removed to the more spacious and elegant rooms No. 28 Washington street, where I have for sale a large quantity of fine pianos, grand pianos, also the celebrated United Makers' Pianos, which, in the judgment of many, stand first in the world. I have a fine collection of the finest used double sounding board. The above-mentioned instruments are now acknowledged to be the best in the world, and are now on exhibition at the U. S. Patent Office, Washington, D. C. and in all the principal cities of the United States, to be the manufacture in this country.

CHAPTER X.—Continued.

COMRADES:—I hope you will not accuse me of unbecoming levity in saying, that having watched the movements of our friend for some time, I am convinced that the main spring of his action is a love of money. Whenever any duty has devolved upon him he has "been and done it," therefore, before we have done with Bennett, I propose three rousing cheers for the Orderly Sergeant.

The cheers were heartily given, and the men went to their quarters. In the evening Corp. F. W. Thompson kept "open house" at the company headquarters, and the non-commissioned officers and many of the privates partook of his hospitality. (to be continued.)

MILITARY HISTORY OF WOBURN.

WOBURN UNION GUARD.

CHAPTER XI.—Continued.

A singular accident occurred to Francis Merritt, one of the Union Guard. He was sitting in his tent with his head leaning on the canvas, when some one in Co. A. threw a stone which struck Merritt on the head. The blow was a severe one, and rendered him insensible, and he never fully recovered from its effects. His mind seemed to be affected, and in March he was discharged. He lived in Marblehead.

In February a heavy snow fall gave the boys an opportunity for sport. The 17th New York regiment made a large snow fort near the parade ground, and in the afternoon one half the regiment were put in possession of it, and ordered to defend it against the other half. A lively snow ball fight then took place which was intensely interesting. The fort was taken, recaptured, and retaken several times, and many of the combatants got bloody noses and black eyes. They enjoyed it very much, and as the attack was made under the regimental officers, and the movements directed by the bugle note, it was very useful as a military lesson. If they were as sure with their rifles as they were with their snow balls, the slaughter in a real engagement would be terrible. The rule of the battle seemed to be that any man who was too hard pressed, could lie down, when he must not be struck, but he was counted as a dead man, and the "hospital cadets," as the band are called, would come up with the ambulances and stretchers and carry him to the rear. Half a dozen soldiers of the attacking party surprised a captain near the parapet, and undertook to make a prisoner of him. A party of his men seeing the movement also took hold of the unlucky officer to prevent his being carried off, and for several minutes it was doubtful whether he would survive the put. Finally, being a strong limbed man, he succeeded in keeping his limb whole, and his party pulled him away from the enemy.

The owner of Hall's Hill, Mr. Basil Hall, lived about half a mile from our camp, in the house of a relative, which was partially occupied as a hospital for the brigade. The attendants at the hospital not being so particular in regard to the rights of Mr. Hall and a neighbor named Burroughs as they should be, a guard of four soldiers was daily posted there.

According to his story, Hall's farm consisted of 327 acres of woodland and village, where our division is encamped. He had a nice, well furnished house, situated near the camp of Follett's battery. Our own troops carried off his furniture after he was driven out of the house by the rebel shells. Subsequently the rebels advanced and burned the house. He recovered a small portion of the furniture only. He expects to be paid for his losses by our government. He has two little negro boys (slaves), Jim and Bill, nine and twelve years of age. These boys picked up a good deal of change from the soldiers who visit the house, by dancing and wrestling for their amusement. Hall used to say "I go in for the Union, but ain't no abolitionist, and any man of common sense will say that slavery is the very best thing for the South."

When the news of the capture of Fort Donaldson was confirmed, Gen. Martin- dale sent an order to have his brigade assembled without arms on the brigade parade ground. The men turned out cheerfully and marched over to the 18th Mass. parade ground where they met the 18th, 21st Maine, and 25th New York. Forming a square the general and staff rode to the center and commanded the brigade to sound "Attention," and then said, "My men, I have called you here that we may together hear the glorious news which has come to us like lightning along the wires from the West. The Adjutant will read." The dispatch was accordingly read, detailing the victory, when the general, waving his cap, shouted, "Now, men, let it go!" and such a cheer as arose from four thousand throats is not often heard. The bands struck up, successively, the national airs. After quiet was somewhat restored the general said, "Regimental commanders will make requisition upon the Quartermaster for a gentle ration of whiskey." It seemed as if the first cheer was as loud as could be given, but the "whiskey speech" brought out a noise that threw the first far in the shade, and gave pretty conclusive evidence that the army is not wholly composed of teetotalers. Marching back to quarters, half a gill of whiskey was given to all who chose to draw it.

Col. Gove understood the bugle calls and could blow them very well, so the commissioned officers acquired a desire to learn to bugle. There were two buglers to every company, the drummers being shorn of their honors and the drum corps reduced to two. Every morning at 6:12 o'clock the drummer boy at the adjutant's office would beat a short call in front of the office. The bugler then turned out and from the flagstaff blew the "bugler's call," after they had come out, the "assembly" would be blown for the companies to assemble in the company streets, and then "reville" sounded and the roll called. Next came the "breakfast call," followed soon after by the "surgeon's call." At noon the dinner call was blown.

(to be continued)

"What do you want?" inquired the gentleman, as he stopped his horse.

"I want to buy a pair of straw mats," proudly responded the urchin, who the same time thrusting a large pole, one end of which he held in his hand, deep into the mud, and pushing with all his might. The little board ratt beneath him shot out into the pond like an arrow. When he had reached the length of the pole, he attempted to pull it out. But the stick had got hold of the pole, and to retain his footing on his tattered raft, he did neither, and fell, swash! into the yellow, muddy water, getting a filthy bath, which was rather unpleasant to take. The gentleman leaped from his carriage, for fear the boy would drown, but he early saw that the boy was safe, and was trying to wipe from his eyes the deposit exhumed. "You old fool! if you hadn't stopped to gape at me, it would have gone well enough."—Somerville Journal.

COMMON TALK.

The committee on fixing up the Common had a meeting Monday night, and chose E. N. Blake, W. T. Grammer and Stephen Nichols a committee to procure plans and proposals for a fence, and report next Monday.

We have to report the pile of boards on the east side Main street, preparatory to the erection of his new brick block.

It has not been apparent because he has not touched the buildings on the street. We understand he will complete the rear building, and then give his attention to the new block, which when completed will be one of the finest buildings in town.

ALLEN'S BLOCK.—Mr. G. W. Allen is making great improvements in the rear of his buildings on the east side Main street, preparatory to the erection of his new brick block.

J. R. K. McDaniel's showed the advantages of it breeding and selection.

It was a rare sight, and worthy of high praise, and in such a manner as to be the best qualities of the breed fully developed.

If they are kept up to their present high standard, they will prove both an honor and a profit to their liberal and enterprising owner, and to the county.

THE NURSERY.—Our little friend has come again, all neatly dressed for June. The cuts in this number are all very fine.

"On the way to grandmother's," is the first one.

All in this group appear to be in good spirits even down to the dog himself.

Among the contents are "The Black-board," "Harry's Dog," "At work in the Garden," "The Pet Cat," "Going for Violets," "Jack keeping Guard," &c.

John L. Shores, 36 Bromfield St., Boston.

HOME AND HEALTH.—The April number of this new Health Magazine comes to us with a great variety of interesting articles. The principal ones are on "The Teeth—Causes and Prevention of Decay," "Health at Home," "Bathing and Bathing" (*Illustrated*), "Rearing Babies," "Tight Lacing (*Illustrated*)," "Bright's Disease Considered." What shall we do in the Sick-room? etc. There are more than forty smaller articles, containing valuable hints on health and for the home.

Published at \$1.50 per year, by W. R. Drury & Brothers, 805 Broadway, New York.

JESUS AND LITTLE BRETHERS.

Two poems by John Hay published in uniform style with "Heathen Chinee," by James R. Osgood & Co. The popularity which these poems have gained is all the recommendations they need. The illustrations are effective.

PETERS' MUSICAL MONTHLY.

June contains a beautiful selection of new music. We give below the contents—

"Genevieve," Scotch song and chorus, by Haye; "Little Voices Heard no More," song and chorus, by Persley; "Most I leave thee, Mother dear?" song, by Hesley; "Dawn of Love," a beautiful German song, by Holzel; "I'm my Daddy's only Son," dance song; "Lily Bell," quartet; "Tis the First Rose of Summer," quartet; "Forget-me-not," by Hesley; "Hail, Holy Queen," by Sustler who the "Pious and Trained," "Soldiers of Christ Arise"; "My Faith Looks up to Thee"; "Red Bird Watzl"; "Chicago Quickstep"; "Ripping Brook Polka"; "The Chase"; "Hunting R'ndo," by Tonel.

THE LITTLE CORPORAL.—"Fighting against wrong, and for the good, the true and the beautiful" is the motto of this pretty magazine. The number for June contains a portrait of Alfred L. Sewell. Some of the articles are—"The Hard Fought Battle"; "Violets"; "In the Sun"; "Among the Relations"; "Fishes at Work," etc. Published by John E. Miller, Chicago, Ill.

NEW MUSIC.—We have received from Oliver Ditson & Co. the following new music: "La Sabtiere Duse aux Sabots," by William Mason; "Offertoire," in Eb. by Wely, as performed by Mr. Torrington on the Music Hall organ, and also at the opening of the Unitarian organ in this town; "Minnehaha," for the piano, by J. M. Webb. The above are instrumental. The quartet, "God is a Spirit," by Wm. Sterndale Bennett; a song, "The Two Roses," music by Werner; "Some Other Day," ballad, music by Offenbach; "I Thought his Heart was all my Own," music by Frederic Clay; "Stealing a Kiss at the Garden Gate," words by Geo. Cooper, music by M. Loech; "Little Sister's Gone to Sleep," words by Geo. Cooper, music by Edwin Christie, are the new vocal selections.

MORE MUSIC.—We have received from Messrs. D. R. Russell & Co., 123 Tremont street, Boston, the following pieces of new music: "Private in the 9th," a serio comic song; "Pearly Gate Alar," a very pleasing devotional melody; "Will You Miss Me by and by," a parting song; "Hear the Angels' Calling," a very touching melody; "Watching by the Sea," a very acceptable song and chorus; "Also No. 96 Waltz," as played by Edwards Band; "Shower of Stars Waltz," and "Summer Eve."

CUMMINGSVILLE.

MORE ROOM.—Workmen are busy excavating to make room for an extension of the tan house at Cummingsville.

They evidently mean to have a supply of fuel in case the trouble in Pennsylvania makes coal too costly.

ENTERPRISING.—Cummingsville is really quite an important part of Woburn. There are two leather manufacturers, with a patent leather shop and currier shop, in addition, carpenter, wheelwright, and blacksmith shops, glue factory, and tallow chandlery, and a watch hand factory. This last is the principal manufactory of the kind in the country, and largely supplies the celebrated Elgin Watch Factory in Illinois. The machinery used is very ingenious, having been made expressly for the work by the proprietors, Messrs. Gossell & Winn. The streets leading to this village are travelled more than any others leading from Woburn Center. There are no stores, no church or chapel, and the only hall is in the engine house. If a horse railroad connected this village with the center, it would be found a great convenience. Gas pipes are creeping out that way, and no doubt the cars will follow before many years.

SHAFTESS.—Wednesday morning at Whittall's market wagon was coming down the hill on Union street, the horse fell and broke both shafts.

GAS.—Gas pipes are being laid in Pleasant street, to carry gas from the present terminus at Dyle's, to Milton Moore's, on Burlington street.

J. R. Kendall, at his stock farm, will give considerable attention to the breeding of swine.

CAUGHT NAPPING.—On Thursday, a peripatetic junk merchant, stopped near Green street, and when ready to proceed on his travels chirruped to his grey steed to go on. The impudent beast responded to go on, and the master of the wagons, with a sharp kick, sent him to the ground. The Police, under Chief Day called on Thomas Salmon last Friday and made quite a haul of liquor. They also looked in on Matthew Foley, and added somewhat to their collection.

JUSTICE CONVERSE COURT.—Michael O'Riley single drunk \$3 and costs.

FOSDICK & BASS are cool ones, and their soda is a cooler.

Read our local news.

NEW PUBLICATIONS.

MIDDLESEX AGRICULTURAL SOCIETY.—We have received the report of the transactions of this society for the year 1870, which consists of the secretary's report, address of the President, Reports and awards of Committees on cattle and fruit, the whole forming a comprehensive account, interesting to those in any way connected with the art of Agriculture. In the report of the Annual Show, speaking of herds of cattle, the report says:

Both the Ayrshire herds possessed good qualities, and the superior merit of J. R. K. McDaniel's showed the advantages of it breeding and selection. It was a rare sight, and worthy of high praise, and in such a manner as to be the best qualities of the breed fully developed.

If they are kept up to their present high standard, they will prove both an honor and a profit to their liberal and enterprising owner, and to the county.

THE NURSERY.—Our little friend has come again, all neatly dressed for June. The cuts in this number are all very fine.

"On the way to grandmother's," is the first one.

All in this group appear to be in good spirits even down to the dog himself.

Among the contents are "The Black-board," "Harry's Dog," "At work in the Garden," "The Pet Cat," "Going for Violets," "Jack keeping Guard," &c.

John L. Shores, 36 Bromfield St., Boston.

CHANGES IN SUNDAY TRAIN.—On and after to-morrow (Sunday), the milk train will leave Boston at 5 P. M., instead of at noon as heretofore, stopping at Winchester.

PRESENTATION.—An elegant fire trumpet was recently presented to P. Shea, Foreman of Excelster Engine Company, by C. H. Brooks of Boston, in behalf of his friends in Boston and Winchester. The trumpet cost fifty dollars, and had inscribed upon it the name of the recipient and his position in the company. The gift was a great surprise to the Captain, and evinced the estimation in which he held and the appreciation of his services by his townsmen and friends.

MEMORIAL DAY.—The following is the order of exercises for next Tuesday, which will be under the direction of Post 33, G. A. R. A. S. Leslie, Commander.

The societies and delegations from this town will be received on the Common at 3 P. M., and from the neighborhood through Pleasant, Washington, Main, Church and Wildwood streets to Wildwood Cemetery, where the exercises will be held as follows: Opening Hymn, Prayer, Reading of General Orders, Dirge, Address, Hymn, Decoration of Graves. All inhabitants of the town are invited to join in the services, and all societies or organizations proposing to join as such as the procession are requested to report by one of their officers before noon of Saturday to either F. Winsor, C. H. Moseley or C. E. Folansbee, Committee of Arrangements.

TOWN MEETING.—A town meeting comes off next Thursday evening. The articles embraced in the warrant have reference to the railroad depot location, the erection of a building for the Chemical Fire Engine, and accepting of Stevens street. We have seen the plan adopted by the railroad officials for the new depot, which looks well, and will no doubt prove satisfactory to the patrons of the road here. Specifications have been drawn in accordance with the plan, and work has commenced upon the land to be removed, the stone fence and trees back to the new boundaries of Mr. Palmer's land. Under these circumstances we hope that the dissatisfied citizens will see the folly of discussing the question of location further, but cheerfully submit to the disposition made of it. Any votes passed in town meeting now will not affect the action of the corporation or change the result. The managers of the railroad fully understand the position of the road here, and have decided to go on with their plan as worked out. We hope that those who think themselves aggrieved in this matter will look at it calmly and seriously, examine the plan and understand thoroughly what is proposed to be done. This arraying of different sections of the town against each other; these continual bickerings with prominent citizens, these petty charges of selfish motives, are very unprofitable, and should be avoided as far as possible as not tending to promote that harmony and good feeling; that generous rivalry to promote the prosperity of the town, which should always exist in such a community. We think that undue importance has been attached to this subject, and the discussion of it has grown into more of a personal quarrel between rival factions than into that enlarged field where the greatest good of the greatest number is the ruling motive. In what we have written now and heretofore upon this depot location we have done it from no personal interest in it, as it does not matter to us individually where the depot is located. But taking all the facts in regard to what has been done, not a part, remembering the vote passed a little more than a year ago by the town proposing to locate the railroad for a nuisance on account of its present depot, and the stoppage and crossing of the fifth road in the center, and the readiness with which the railroad officials responded to this (although threatened in such a violent manner), by an examination of the premises, satisfying themselves that a new depot was needed, and deciding that it should be put at a sufficient distance from the highway as to avoid the objections of the trains standing across it when stopping at the station. How they with their skillful engineers surveyed the different locations which suggested themselves or were suggested to them, expressing a readiness to expend \$20,000 for a depot that should be an ornament to the town, reflect credit upon the corporation and conveniently accommodate the patrons of the road. Remembering all these things, one can not but see that the town or a portion of its inhabitants have not acted in a corresponding spirit to that shown by the railroad directors, but have by their actions tended to hinder the good work. The husbandman, too, is busily engaged in putting seed into the ground, affording unmistakable proof of that faith that grows by works. He carefully prepares the seed, casts it into the ground, and patiently awaits the harvest, knowing he will reap of the kind he has sown. As in the natural, so in the moral world. Men thoughts and mean actions reproduce themselves; likewise noble thoughts and noble acts.

ENTERTAINMENT.—The success of the entertainment given by the Y. F. S. S. on Friday evening of last week, induced them to give another one last Tuesday evening. The exercises consisted of the effective little drama, "Sunshine Through The Clouds," and the comical after piece called "That Nose."

CHANGE OF TIME.—The summer arrangement of the railroad time table is issued. Three new trains will be run through the summer on Sundays.

DECORATION DAY.—E. W. Kingsley Post 113, G. A. R., of Boston, will go to Lexington by a special train about twelve o'clock on Tuesday, and proceed to the Town Hall, where a collation will be served.

ENTERTAINMENT.—The Bethel Lodge, I. O. O. F., will be present at the laying of the corner stone of the new Old Fellow's Hall, in Boston, June 13th, attended by the Arlington Band.

BEAVER.—"Beware of BEEF" is the saying of the day in this town.

LEXINGTON.

DECORATION DAY.—E. W. Kingsley Post 113, G. A. R., of Boston, will go to Lexington by a special train about twelve o'clock on Tuesday, and proceed to the Town Hall, where a collation will be served.

Miscellaneous Reading.

A SOUTHERN LOAD OF WOOD.—I walked out to the east of the city, having no objection to go where ever I wanted into the country. In the suburbs of the city I met a concern that always attracts the attention of a stranger. It was a South Carolina load of wood. This load of wood was on a rickety wagon, the wheels of which wobbled and bobbed about over the road in as unsteady a manner as any drunken man could have. On this wagon was a rack, and in this rack were four pins, each about two feet high. They were distinct apart from each other some fourteen inches one way, and four feet the other. Within these standards, gentle reader, was the load of wood. Honestly, there was not enough of it to make a single match. One of the old-fashioned seats would swallow wagon, wood and all, and then call for more. Hitched to this wagon was an animal, which, in the better days of the republic, might have been a horse. Now it was a portion of a horse's skin filled with his bones. The horse himself did not seem to care. This bundle was soon skin and bone, and when it was hitched to the "wagons" by means of two pieces of a clothes-line rope, and an armful of straw tied into something that might pass for a villainous burlesque on a horse-collar, by means of a strap cut from an old boot-leg. The bridle was made out of a scrap from the same boot-leg and ended large into the mouth of the creature of the "wagons." There were only two pieces of it, and the bit. This last was a big army affair, and not having shrunk away with the horse, it looked by the side of his jambished jaws like a lightningrod twisted into fantastic shapes. The reins were on a scale of grandeur commensurate with the rest of the harness, and the leather made of what appeared to be old stockings, and the other of several articles, starting out with a small chain next the bit, or twisted lightningrod, then a few feet of something apparently cut from the edge of a piece of cotton bagging, and ended with a bit of the clothes-line that was left over from the traces.

The driver and apparent owner of this turn-out was a tall, thin, lean, sausinelike, shankled, lantern-jawed, endevours-looking cuss, who looked as if he had not had a square meal since 1860, and could eat up the weight of his wood and horse, if presented in the shape meat and bread, at a single sitting.

I looked at this moving panorama of poverty and misery, and thought, though I wanted to buy, and brought his animal to a halt. It was no trouble to do that, as the bones in the dried skin suddenly stopped waddling even before the word of command had fairly out of the driver's mouth, or there had been the slightest jerk on the twisted lightningrod.

"I never want to buy this 'er wood?" he asked.

"What's it worth?"

"Wait, seeing that I'm in a hurry, and has a good bit back home, and I'm a needin' some money powerful bad, I'll just take eighty cents for the load."

"Is that the usual price for loads of that size?"

"Well, I can't say for certain 'ts or 'tum. His chearin' has most loads for the money, for it's bigger. The piece of wood in Columbia depends upon things, you know; that is, sometimes hit's scarce, and then agin' a good bit will come in, and then you see we can't always understand how things will work and come about concerning of the supply of such needs as city people has to contend with, when it comes to the way we do in the country about things of the sort, you know. Have you got any tobacco?"

I did not use the word.

"Well, talk up pert 'bout this 're wood. My old nag's 'bout to lay down, and if I don't move on 'll hell lay down in spite of the devil, and when he once gets down it takes work for to get him up, and I've found out that when you want another incentive to get along, and the panorama of poverty slowly moved on toward the city—[Columbus, S. C., letter to the Cincinnati Commercial.]

ON TIME.—It tailors, boot-makers, tradesmen generally did but know it, the public hold punctuality in as high estimation as perfect fits. As there is nothing more annoying than repeated delays after a thing has been promised, so there is nothing more satisfactory to the customer than to have a prompt agreement. Those tradesmen make a mistake who habitually promise what they know themselves they cannot perform. A purchaser, after being disappointed two or three times, seeks some other establishment. It has been truly observed that men who are habitually behind time are habitually behind success. They are always seeking customers, never contrive to establish permanent relations with buyers, and make no headway, while others who are prompt and do as they agree to do, extend the number of their patrons, and acquire wealth. An inquiry into the records of successful businessmen shows that punctuality has been one of their virtues. No one has or can succeed with it, how ever superior their qualifications in other respects.

A MILE.—Very few persons are aware of the difference between our American mile and that of foreign countries. The following short table of measurement will prove interesting to every one: A fathom is 6 feet, derived from the height of full-grown mussels. A hand, in horse measures, is 9 inches. An acre is 2,200 yards, a Scotch mile is 1,880 yards, a German miles 8,101 yards, a Turkish mile 1,827 yards. An acre is 240 square yards—69 yards, 1 foot, 8 1/2 inches each way. A square acre, 1,760 yards each way, contains 640 acres.

—A Buffalo paper prints the following letter from one of its old and prompt paying patrons: "Please discontinue my paper, as I have never paid up to date. I do not stop the paper because I do not want it, but to get rid of an intolerable old bore that intrudes himself in my house, regardless of time or circumstances, to sit for an hour or two, three or four times a week, to read my papers, and who is a thousand times more able to take a dozen papers for himself than I am to take one. If the nuisance is stopped I shall send for the paper again."

—Bob Brown, did you say that my father's little yellow dog? "No, I never said any such a thing. I never said that your father had not as much sense as Bobby Smith's little yellow dog. All I said was, that Bobby's little yellow dog had more sense than you father; that's all I ever said." "Well, it's well you didn't say the other, I tell you."

—There was a marriage in Faribault, Minn., on Saturday, and the local paper says: "After the wedding, the bride presented the happy bride with one dozen golden oranges, one dozen blue lemons, five pounds of new figs, five pounds of splendid assorted candies, and six cans of fresh oysters."

—A doctor's motto is supposed to be "A ready, safe, and sure cure for patients and long suffering."

good depot accommodations, is wholly unequalled for. This distance would be sensibly felt, especially on Saturday, when many go in at six in the morning, return a half past ten in the evening, wearied with labor, this would be the last straw to the camel's back.

Then again, property declines in value as we recede from depots. Many, if not all, bought their estates in consequence of their close proximity to railroad accommodations; now to remove these, after being engaged over twenty years, is doing great injustice to the parties.

Then again, the removal to the new location necessitates the expenditure of many thousand dollars in streets, for the lot has no street leading to it, this would swell the taxes and touch the pocket nerve.

Sometimes since, near the close of an excited town meeting, and at the conclusion of damning speeches by a certain lawyer and others, it was voted to indict the Lowell Railroad as a nuisance for obstructing the travel. It was alleged that trains going through a much travelled crossing like this, at the rate of from 20 to 40 miles an hour, was dangerous to life and limb; but the removal of the depot increases instead of abating this difficulty, for more than half the trains now stop, then they will all sweep by with their accustomed velocity.

It is self-evident that the time is not far distant when all much travelled crossings will have to be as in England, bridged and tunnelled. In the meantime we trust the depot will rest on the spot where it now stands, for years to come.

MILITARY HISTORY OF WOBURN.

WOBURN UNION GUARD.

CHAPTER XI.—Continued.

In the latter part of February a heavy gale occurred at Hall's Hill. The morning began with a light mist, which soon cleared away, and for an hour or two the weather was as mild as summer. About ten o'clock a heavy black cloud, preceded by a long narrow white one, appeared in the northwest, and it was not many minutes before the wind blew a hurricane. It came up so unexpectedly, that many of the messes did not have their tents closed, and a majority of them were blown down. Some of them were kept upright, but it was by great exertions. After fighting the wind for some time our mess thought to anticipate a complete overthrow by lowering the canvas, and by that means we saved the tent, though it was pretty badly torn. The force of the gale may be judged from the fact that many large trees in the woods near by were uprooted by the wind, and detached limbs were blown out of the forest and up over the hill across the parade ground. By great effort the hospital tents were kept upright, though they were pretty well shaken up. Precautions were early taken to prevent the unroofing of the cookhouses, and they were about the only comfortable places in the camp. The soldiers always look out for the comisariat, and this instinct led them to secure the kitchen against the assaults of King Boates. The wind continued to blow until daylight on Tuesday morning, when it subsided, and not a few of the boys had a cold night of it. We put up our tent about dark, and it afforded us some shelter, though several times through the night as we were awakened by the flapping canvas and crackling tent poles, we could look up to the stars without getting out of bed. About one o'clock several of us happened to be awake, the song "Twinkling stars are laughing, love," burst forth as it were spontaneously, and it was never sung with more feeling, nor under more fitting circumstances. The merry twinklers as they peeped through the huge rents in our ragged canvas seemed laughing at us, and we returned the compliment with right good will, and laughed to think of a situation which must have been to outsiders very ludicrous.

A day or two after the gale Deacon Thomas Richardson, Willis Buckman, Simon Holden, Jotham Hill and John G. Cole visited the camp. Being storm bound, they spent the night under canvas, and seemed to enjoy the novelty of their situation.

Feb. 27, William Gillespie and Stephen R. Moreland were discharged for disability. Moreland started for home at once, but Gillespie was too ill to be removed, and died in the camp hospital a week later.

On the 2d of March, a sad event occurred in the death of Andrew Jackson Harris, the first Woburn boy who died in the service. He had been in ill health for some time previous to the sickness, which resulted in his death, but his friends were not solicitous, as it did not seem likely to be serious; though having an attack of deafness he was advised to get discharged from the service, but he was so much opposed to it that no measures were taken to effect it, and his hearing was partially restored. About a month after he took a violent cold, and that led to a typhoid fever, and he was removed to the hospital. He was deranged during most of the time he was in the hospital, and although there were lucid intervals, they were of short duration, and his comrades were unable to converse with him, and a great part of the time were not allowed to visit him. It was thought he would recover, however, until the day before he died, when his friends were informed by telegraph that he could not live. He died at one o'clock Sunday morning, having been unconscious since the preceding afternoon. The sad news was immediately dispatched to his relatives, and preparations made for sending the body home. A metallic casket was procured in Washington by the company, and the remains hermetically sealed. On Tuesday morning funeral exercises took place near the hospital, consisting of a short address and prayer by the chaplain. The funeral escort, consisting of eight privates with arms reversed, commanded by Corp. F. W. Thompson, preceded by the band, then marched to the entrance of the camp. The coffin was borne by six pall-bearers from other companies, and was followed by the Union Guard without arms. Arrived at the entrance, the remains were taken in charge by Capt. Thompson and Sergt. Morris, who conveyed them to Washington, and from there forwarded them to Woburn. On the return of the company to their quarters the following regulations were unanimously adopted:

Whereas, God in his providence has seen fit to remove from our ranks by death our friend and fellow-soldier, Andrew J. Harris.

Resolved, That although he fell not on the field of battle, where glory may be won, yet his constant cheerfulness in health, making all who knew him friends; his faithful discharge of duty; his devotion to his country, and his incomparable resignation during his last sickness, have made his memory dear to each one of us; and, although the hand of death has stricken his name from our rolls, yet it will remain on the tablets of our memory.

Resolved, That we tender our sympathies to, and mingle our tears with the relatives and friends of the deceased.

Resolved, That we forward a copy of these resolutions to the family of our deceased friend, and also to the Woburn papers for publication.

In the target shooting Private W. B. Smith made the best record, and received the company's "stadium," brass instrument for measuring distances, for a prize.

Lieut. Davis of the Guard was appointed to Gen. Martindale's staff in March, and continued in that position throughout the winter.

The Common Meeting.

The Town Meeting, last Friday evening, chose Horace Conn, Moderator. On the second article, John Cummings offered a motion, which he afterward modified to read as follows:—

That the votes passed at the Town Meeting held on the 9th of May be voted to finance the Committee on fitting up the Common, to build a fence on the Common in the manner therein described, he rescinded.

He believed a majority of the Town wished a fence on the curb, as they voted in April. They were told in April that they could not move the fence, but they have obtained a legal opinion, and the Committee believe that they can, because the Town is the successor to the proprietors of common and undivided lands.—

Although the County Commissioners have no right to lay out Winn street, across the land of the Common, the Town has the right. If there was no fence there, no one could be found insane enough to move to put one there. He did not believe the beauty of the Town would be harmed, but the symmetry of the Common would be preserved by putting a fence on the circular curb. Had it not been for the legal questions which had been raised, the work would have been done long ago. He referred to the exertions of his father in securing the establishment of Winn street, he having bought land at twice its value, and then giving the right of way.

Stephen Nichols said the Committee voted to submit the vote of the Town in May to Mr. Sweetser, and he says the Town has the right to fence the Common as it sees fit, but he did not think Sweetser would say the Common should be unfenced because some one gave land to make Winn street. Mr. Cummings had been made more valuable, and he ought not to come here for sympathy. A stone man had told him the curb wouldn't hold an iron fence. The Committee have procured plans and prices, and are ready to contract for the work.

Mr. Cummings said that if the May vote was rescinded, it would save the Town between \$3,000 and \$4,000.

Mr. Sweetser's opinion having been called for, it was read as published in the last *Journal*, as follows:—

"I have been shown a plan of common land in the Town of Woburn, supposed without doubt to belong to said Woburn, and asked the question, whether under a vote of the Town to that effect, you as a Committee can fence the lot, and in doing so, do not violate the law? I have no doubt whatever that you can do so, provided there is no question that the lot belongs to the Town of Woburn. Of that question I express no opinion, because I have not sufficient knowledge of it."

J. E. Littlefield said Mr. Cummings' father did a great deal to carry Winn street to Pleasant street, but he never heard him say anything about its going across the Common; that it was a mistake that Mr. C. bought land of S. Wood for the street.

Mr. Cummings replied that his father bought the land where Ellis's house is, and the land opposite, and he bought it of his father and paid him \$1500.

Mr. Littlefield continued, and said it is an attempt was made to carry a county road across the Common, an injunction would be put upon it, which could not be removed, even by the Supreme Court. He quoted Judge Morton, in the Cambridge case, who said that anything to improve the Common might be done, but nothing to injure it. The rounding the corners was an improvement.

G. M. Champney thought that Mr. Sweetser's opinion was that the Town could do what it would with its own, and he contended that the Town could beautify its Common. He regarded the legal question as out of the way. The Town owns the land, and no one else will be found to claim it. It is simply a question of expediency and taste. In selecting a site for the monument the Committee had adopted the suggestion of Col. Grammer, and set it on the Common. Twenty hundred dollars was voted to carry out the design of putting in a curb and finishing up the grounds. The Selectmen having had the matter left with them in conjunction with the committee, claimed the right to do the work. He was told they voted one to remove the old fence, but some one outside had said it shouldn't be. He thought the Committee were not chargeable for some things the editor had said about them. The April meeting voted fairly to carry out the design of the Committee, while the May meeting enlarged the Committee and ordered a different method. The Committee had procured a plan which had been ridiculed as the Tadpole Plan, but he thought tadpoles beautiful in their forms. In reply to questions as to what the Committee would do, he said the present curb will be fenced with a light fence, and a walk made about it as wide as circumstances will allow, and the trees protected. The Selectmen will put in the curb, and he was not responsible if it was not in harmony with the lines of beauty and taste, but he would be loath to leave it until it was put in proper shape.

Mr. Cummings thought the street in front of the post office should be taken down six inches, and brought up one foot on Common street.

W. T. Grammer believed some were anxious to have it fixed right, while others wanted to carry out their own ideas. He was firm in the conviction that we have not the rights in the Common that we have in the Town Farm. He had asked Sweetser if we owned the Common, and his reply was, "I don't know; how the devil should I?" He was willing to go on and build the fence as voted in May, and run the risk. He had never had any project but to fit it up. He reviewed the various acts of the committee in relation to the choice of a site for the

monument. The credit of placing the monument on the Common had been given to him, but it belonged to D. D. Hart, who had first suggested it to him. He believed a perfect circle or a complete triangle, is the proper plan to-day. When he learned that the County Commission had no right to put a road across the Common, he changed his views. He favored the plans explained in the *Journal* of May 27, and had prepared a drawing of it, which for some unknown cause had not come to hand.

[This plan was in the express office at that time, and was delivered next morning.]

Several plans were then shown, and explained by the Town Clerk.

The meeting at this point became somewhat conversational, in which the meaning of "a birds eye view" was explained, and the fact established that a circle is not the line of beauty.

J. P. Crane had some personal grievances to present, but as he didn't want his speech printed we shall consider his feelings in the matter.

Nathan Wyman said he had always favored the triangle. That shape is determined by the streets. He wrote the motion at the previous meeting, and hoped the vote on it will be carried out. He moved to indefinitely postpone the whole matter. This was voted down.

W. B. Harris wanted to know if the Town or the State owned the monument; if the State owns the Common it owns the monument; if the town don't own the Common it is the town's. He is playing the role of a second devil, advanced boldly, exploded a speech at our defenceless head, and presented a golden memento of the occasion and token of their esteem. We recovered slowly, and rated after the usual form in such cases made and provided. Jones, the reporter, being out of town, and not having received advanced copies of the speeches, we cannot give them, but they were good, especially the devils.

A NEW EPIDEMIC.—The Town Meeting epidemic has broken out all over the country, and all through the little democracies of New England the people are being aroused by some local question which for the time stirs their very souls. Brighton is exercised about a highway. Watertown about a fire engine, Woburn about a common, and Winchester about a Common, and Woburn, about the Common it is the Newcomer, who is playing the role of second devil, advanced boldly, exploded a speech at our defenceless head, and presented a golden memento of the occasion and token of their esteem. We recovered slowly, and rated after the usual form in such cases made and provided. Jones, the reporter, being out of town, and not having received advanced copies of the speeches, we cannot give them, but they were good, especially the devils.

Mr. Littlefield replied briefly.

Edgar Marchant then made some pointed allusions to the "oracle of Woburn."

Capt. Crane made another speech in which in deference to his feelings we suppress.

The vote was then taken, and announced rather cautiously as 77 in the affirmative and 61 in the negative. The vote being doubted, the house was polled, when 116 voted for the motion and 66 against it.

G. M. Champney then moved the following:—

That the committee chosen on fitting up the Common at the town meeting held in April and May last, be instructed to put a suitable fence upon the circular stone base as now set, construct a side wall of not less than eight nor more than twelve feet wide with a gate six inches wide, and a post and rail fence on the outside, which the same fence as the committee may deem proper, and take away the old fence.

S. G. Wyman asked if the fence was to be kept from the public.

Edward Simonds said that more than fifty of those who had voted for the first motion were those whom he had seen roosting on the old fence.

John Lockerby said that many of those who had voted for the motion had said that if they didn't get what they wanted they would leave town.

Mr. Champney's motion was then passed, and the meeting dissolved.

[Our thanks are due the Town Clerk for facilities furnished the reporters.]

G. M. Champney then moved the following:—

That the committee chosen on fitting up the Common at the town meeting held in April and May last, be instructed to put a suitable fence upon the circular stone base as now set, construct a side wall of not less than eight nor more than twelve feet wide with a gate six inches wide, and a post and rail fence on the outside, which the same fence as the committee may deem proper, and take away the old fence.

S. G. Wyman asked if the fence was to be kept from the public.

Mr. Champney's motion was then passed, and the meeting dissolved.

[Our thanks are due the Town Clerk for facilities furnished the reporters.]

Herrick's Town Officer.—We have received this book from the publishers, Little, Brown & Co., Boston. It is neatly bound in cloth, containing 613 pages, and is written by William A. Herrick of the Boston Bar, who has endeavored to bring together in convenient order for the use of Town Officers and all others interested in the administration of town affairs, all the statutes now in force in this Commonwealth, pertaining to the duties, powers and liabilities of towns and their officers. To this is added an appendix, in which brief rules for conducting town and other meetings are given; also forms for drafting the papers to be made by town officers. Mr. Herrick appears to have exhausted the subject, and has given to the public a really valuable work. It should be in our Town Library.

COMMON COMMITTEE.—But little business was done at the committee meeting last Monday, most of the time being spent in personal explanations. It having reached the ears of the committee that another Town Meeting was to be held, they concluded to wait and see what would be done. Meantime the Common remains as it was.

MASS MEETING.—The South Middlesex Conference of Unitarian churches held a mass meeting at Walden Pond Grove, in Concord, on Wednesday last. The success of the occasion was all that could be desired. The weather was delightful, the attendance upon both meetings of the day very large, the speaking excellent, and the enthusiasm great.

PLAY OUT.—No. 3 Engine Co. and the steamer had a play out last Monday evening. The steamer supplied the tub with water through 150 feet of hose, which held out manfully for about three minutes. The steamer then attempted to play a stream and supply the tub at the same time, which they succeeded in doing after a trial of about four minutes. The best feeling existed, and when the steamer started home she was cheered by No. 3's men.

REAL STATE SALES.—The estate of the late B. C. Chaloner on Main street, next to the Unitarian Church, has been sold by Mr. Horace Hatch, to Irving S. Palmer for \$6000. The cottage on Grove street, owned by J. H. Bacon has been sold to Mr. Gibbs for \$2000.

ANNUAL SURPRISE.—One of our best and most honored citizens, Gardner French, Esq., with his excellent lady, enjoyed an unexpected visit from more than one hundred of their cherished friends, on the occasion of their twentieth anniversary of married life, on the night of June 24. Their house was besieged, front and rear, by the attacking party, when a breach was finally made, the fortress capitulating to superior strength and numbers. A bountiful table was soon spread, and the happy host and hostess invited to partake, when to their pastor, Rev. Mr. Bell, saluted them with a speech, during which, in his inimitable way, he made them the glad recipients of a number of valuable gifts, pleasant souvenirs from their friends, not a cent less than \$1000. Gen. Stark should ignore the proceedings therein as not a fair representation of the wishes of the citizens who are most directly interested in the location of the depot, either as season ticket passengers or as a portion of the general travelling public. Gen. Stark may choose to accept the proposition made to have no new depot but the present one remain until such a time as the town can cease from quarrelling about a location and accept such an one as the corporation in their wisdom may fix upon. Should this latter course be pursued, our townspeople may learn wisdom in this matter and be prepared to act in a more harmonious manner, and not let their passions and prejudices get the control over them.

ANNUAL MEETING.—The adjourned Town Meeting on Monday was not so lively as the former one. Rev. Mr. Metcalf offered prayer at the commencement. The Clerk then read the minutes of the previous meeting. Sumner Richardson then moved that the committee named in Article 6, be discharged from further service. He then stated that one of the committee had gone West, another is away from town, and a third has said he will not meet the committee again, and as they cannot harmonize he thought they had better be discharged.

Rev. G. Cooke, moved to lay the article as it was, before the court for the arrest of a certain troublesome individual. The warrant was accordingly issued. The next morning the court assembled at nine o'clock, and waited until twelve, and still no prisoner was brought before it. Justice Carter chanced to meet the defendant on Monday last, and inquired for the prisoner. The reply was that he had been released and the warrant returned.

RETURN.—The Pastor of the Old South Parish, has returned from a few weeks absence at the West, evidently much strengthened in body. At the Sabbath School Concert, the other night, he gave a racy talk on western life, especially that connected with Sunday school.

ANNUAL MEETING.—The adjourned Town Meeting on Monday was not so lively as the former one. Rev. Mr. Metcalf offered prayer at the commencement. The Clerk then read the minutes of the previous meeting. Sumner Richardson then moved that the committee named in Article 6, be discharged from further service. He then stated that one of the committee had gone West, another is away from town, and a third has said he will not meet the committee again, and as they cannot harmonize he thought they had better be discharged.

Rev. G. Cooke, moved to lay the article as it was, before the court for the arrest of a certain troublesome individual. The warrant was accordingly issued. The next morning the court assembled at nine o'clock, and waited until twelve, and still no prisoner was brought before it. Justice Carter chanced to meet the defendant on Monday last, and inquired for the prisoner. The reply was that he had been released and the warrant returned.

DENNIS CREEDEN was before Justice Carter, and fined \$10.00 and costs, for keeping liquor with intent to sell. Thomas Murry, for the same offence, received the same penalty.

BURLINGTON.—J. D. Blanchard has sold 30 acres of the Babylon road to John Cummings for \$2000.

FRATERNAL.—Woburn Lodge of Good Templars visited the Stowham Lodge on Wednesday evening.

RAINS.—The rain of Wednesday night was much needed and appreciated.

SAVINGS BANK.—The Old South has been made more pleasant and inviting to the eye, by the putting down of a \$1,000 carpet, from our friend Knight's store in Boston. It was manufactured especially for the Society.

THE LYNN REPORTER has the handsomest office outside of Boston.

MIDDLESEX COUNTY JOURNAL, SATURDAY, JUNE 10, 1871.

COUNTY MATTERS.

— Winchester.

PASTORAL ANNIVERSARY.—"Five years of ministry in Winchester" will be the theme of the discourse of the pastor of the Unitarian Society to-morrow (Sunday) morning. The occasion will also be observed by a social gathering of the society in the vestry on Thursday evening next.

INCENDIARISM.—Last Saturday evening fire was discovered in the entry way adjoining the counting room of F. H. Morse & Co. It was fortunately seen before it had made much progress, and was put out with two buckets of water. A reward should be offered by our town officials for such incendiary acts. [It is]

IMPROVEMENTS.—The improvements recently made at Symmes' corner are deserving of a passing notice. The donation of and throwing into the street by

Messrs. Marshall and Luther R. Symmes, of quite a portion of their land, has made a large square, the centre of which is arranged for a grass plot, and a gas lamp post has been erected on the same, which was lighted for the first time on Monday evening last. We should like to see the

improvements at the corner of Main and Church street, especially by freight trains.

RESCUE.—That we earnestly wish the switches and tracks to be so arranged as to cause as little obstruction as possible to the

switches and tracks to be so arranged as to cause as little obstruction as possible to the

WOBURN, May 1, 1871.

The subscribers have this day formed a copartnership under the style of C. F. & S. White, and will continue business as Masons and Builders. Shop on Union Street, opposite Jones's blacksmith shop.

WOBURN, May 1, 1871.

Married

In Woburn, June 6th, by Rev. W. S. Barnes, Mr. George M. Buchanan and Miss Mary C. Granner, the daughter of W. J. Granner, all of Woburn.

Blessed be the happy pair,

With much joy and less care,

And may both see the bride so rare,

Again become a "Great pair."

It was "Hopkins' choice," so she took the Barber.

In Lexington, June 5th, by Rev. Henry Wescott, John Henry Aney and Lizzie Thornton, both of Lexington.

In Woburn, June 6th, by Rev. S. R. Denison, William Graham and Annie Foster, both of Woburn.

Died.

Subsister in June 6th, in Hartford, Conn., at the residence of Mr. T. Winship, Mrs. Mary W. Cutler, widow of the late Benjamin J. Cutler, M. D., aged 66 years.

At the First Congregational Church, Woburn, Saturday, at 4 o'clock P. M.

All friends are respectfully invited to be present.

In Arlington, June 5th, John Fowle, aged 67 years.

In Woburn, June 5th, Clara E., wife of Edwin R. Wiley, aged 30 years, 9 months.

In Woburn, June 5th, Maria G. McConville, aged 1 year, 6 months.

A Cough, Cold, or Sore Throat.

Requires immediate attention, as neglect often results in an incurable Long Disease.

Brown's Bronchial Troches will most invariably give instant relief.

For BRONCHIAL, ASTHMA, CATARRH, CONSUMPTION and THROAT DISEASES, the following are the best.

SURGEONS and PUBLIC SPEAKERS use them to clear and strengthen the voice.

Owing to the good reputation and popularity of the Troches, many worthless and cheap imitations are offered, which are good for nothing. Be sure to obtain the true.

BROWN'S BRONCHIAL TROCHES.

SOLD EVERYWHERE.

For Moth Patches, Freckles and Tan.

Use Parry's Moth & Freckle Lotion.

It is the only reliable and harmless Remedy known for removing Brown discoloration. Sold everywhere. Depot, 49 Bond St., N. Y.

PIMPLES ON THE FACE.

For Comedones, Black-worms or Grubs, Pimply Eruptions, and Blistered disfigurements on the Face, use Perry's Comedone and Pimple Remedy.

Prepared only by Dr. C. C. Perry, Dermatologist, 49 Bond St., N. Y. Sold by Druggists everywhere.

TOWN WARRANT.

CHARLES STONE VILLAGE LOCATED, ALONG THE

INCORPORATED AS WOBURN, JUN 10, 1871.

COMMONWEALTH OF MASSACHUSETTS.—

To the Constables of the Town of Woburn, in and near the same.

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Woburn, that in virtue of town warrant, meet at the Town Hall in said Woburn, on Friday, the sixteenth day of June, and at 2 o'clock P. M., to act on the following articles, viz.—To choose a Moderator to preside

and to receive the fitting up of the Common, or other public buildings.

And you are directed to serve this Warrant by causing the same to be published in the Woburn Advertiser, and to be read at least two hours before the time of holding said meeting.

Hereof fail not, and make known return of this Warrant, and the day and hour of holding the Town Clerk at or before the time of holding said meeting.

Given under the hands of the Selectmen, the Town Clerk, and the Town Clerk, June 4, A. D., 1871.

ART. 2. To choose a Moderator to preside

and to receive the fitting up of the Common, or other public buildings.

And you are directed to serve this Warrant by causing the same to be published in the Woburn Advertiser, and to be read at least two hours before the time of holding said meeting.

Hereof fail not, and make known return of this Warrant, and the day and hour of holding the Town Clerk at or before the time of holding said meeting.

Given under the hands of the Selectmen, the Town Clerk, and the Town Clerk, June 4, A. D., 1871.

ART. 3. To choose a Moderator to preside

and to receive the fitting up of the Common, or other public buildings.

And you are directed to serve this Warrant by causing the same to be published in the Woburn Advertiser, and to be read at least two hours before the time of holding said meeting.

Hereof fail not, and make known return of this Warrant, and the day and hour of holding the Town Clerk at or before the time of holding said meeting.

Given under the hands of the Selectmen, the Town Clerk, and the Town Clerk, June 4, A. D., 1871.

ART. 4. To choose a Moderator to preside

and to receive the fitting up of the Common, or other public buildings.

And you are directed to serve this Warrant by causing the same to be published in the Woburn Advertiser, and to be read at least two hours before the time of holding said meeting.

Hereof fail not, and make known return of this Warrant, and the day and hour of holding the Town Clerk at or before the time of holding said meeting.

Given under the hands of the Selectmen, the Town Clerk, and the Town Clerk, June 4, A. D., 1871.

ART. 5. To choose a Moderator to preside

and to receive the fitting up of the Common, or other public buildings.

And you are directed to serve this Warrant by causing the same to be published in the Woburn Advertiser, and to be read at least two hours before the time of holding said meeting.

Hereof fail not, and make known return of this Warrant, and the day and hour of holding the Town Clerk at or before the time of holding said meeting.

Given under the hands of the Selectmen, the Town Clerk, and the Town Clerk, June 4, A. D., 1871.

ART. 6. To choose a Moderator to preside

and to receive the fitting up of the Common, or other public buildings.

And you are directed to serve this Warrant by causing the same to be published in the Woburn Advertiser, and to be read at least two hours before the time of holding said meeting.

Hereof fail not, and make known return of this Warrant, and the day and hour of holding the Town Clerk at or before the time of holding said meeting.

Given under the hands of the Selectmen, the Town Clerk, and the Town Clerk, June 4, A. D., 1871.

ART. 7. To choose a Moderator to preside

and to receive the fitting up of the Common, or other public buildings.

And you are directed to serve this Warrant by causing the same to be published in the Woburn Advertiser, and to be read at least two hours before the time of holding said meeting.

Hereof fail not, and make known return of this Warrant, and the day and hour of holding the Town Clerk at or before the time of holding said meeting.

Given under the hands of the Selectmen, the Town Clerk, and the Town Clerk, June 4, A. D., 1871.

ART. 8. To choose a Moderator to preside

and to receive the fitting up of the Common, or other public buildings.

And you are directed to serve this Warrant by causing the same to be published in the Woburn Advertiser, and to be read at least two hours before the time of holding said meeting.

Hereof fail not, and make known return of this Warrant, and the day and hour of holding the Town Clerk at or before the time of holding said meeting.

Given under the hands of the Selectmen, the Town Clerk, and the Town Clerk, June 4, A. D., 1871.

and to receive the fitting up of the Common, or other public buildings.

And you are directed to serve this Warrant by causing

MILITARY HISTORY OF WOBURN.

WOBURN UNION GUARD,
CHAPTER XI—Continued.

March 9th Capt. Timothy Winn, Lieut. C. S. Converse and C. G. Lund, dropped in to see the Guard, and accepted their hospitality. During the night orders came for a move, and on the morning of the 10th the Army of the Potomac started on its first march. Gen. Martindale's brigade fell into line about 8 o'clock, and moved off in heavy marching order. Many of the men were very heavily loaded, and we had not gone far before the march began to tell on them, and we were not out of sight of the hill before blankets were thrown away to lighten the load. We had marched but about a mile before Charles Dean became exhausted, and was obliged to turn back. He had been in poor health for some time, but was anxious to move with the rest. He returned to the camp, and afterwards went home, but he did not long survive.

Our course lay about west through the camps of the 9th Mass. and 62d Penn., to Fall's Church village, across the Leesburg turnpike, and down the road in the direction of Bull Run. Morell's brigade was ahead of us, moving in the same direction. We proceeded slowly, with frequent rests, and at noon had marched about ten miles. Just as we left camp, it began to rain, and it continued gnat until noon. We halted in a meadow near the house of a man named Moore, who furnished meal for the officers (for a consideration), but did not seem to feel very cordial towards the troops. On the way a great many of the soldiers in the regiments in advance of us threw away knapsacks and blankets, and our boys who were lightly loaded picked up the latter. The road was very heavy, and in many places we were obliged to wade through mud and water knee deep, but our boys stood it remarkably well, and all came into the halting place in good shape. All but twelve of the Union Guard marched with us; two were sick in Washington hospital, four were cooks, and six who were sick in quarters.

After a rest of about an hour, the brigade moved on again towards Centerville. The road was very hilly, beside being muddy, and the march was much more fatiguing than that of the forenoon. I noticed, however, that those who carried their staff through the forenoon, continued to do so through the afternoon, and nothing of value was thrown away. About four o'clock the column reached Fairfax Court House, five miles from Morel's, passed through the town and halted on a hill just outside on the Winchester turnpike. The ground was damp, and a cold wind springing up, made it very uncomfortable. There were but seven tents with us—six were occupied by the line officers and part of the "non-coms," and one by the staff. The rest of us gathered some boughs, and made up places for sleeping on the ground. It was very cold during the night, the camp fires which were made proved very comfortable. Many of us bivouacked on that night for the first time, and we could hardly have had a more unfavorable time, fatigued with our (to us) long march and no covering but our blankets, but no one caught cold, and next morning the surgeon had no patients.

The regiment was all up before "reville," and warming themselves at the camp fires. The wind went down at daylight, and the sun rose warm and pleasant. Just over the turnpike a small brook furnished water for washing and cooking, and it was used pretty freely. Fairfax seems to have been quite a good-looking town. It is built on a hill, pleasantly situated, and the houses, being mostly of brick, are very fine residences. The county buildings are of brick, except the jail, which is built of timber, very strong. There are two churches, very neat structures, one wooden and the other brick. The latter is now used as barracks for cavalry. Going into the Court House, I met Mr. E. P. Stone, formerly of Woburn, now chaplain in the 6th Vermont. His regiment is in Smith's division, which is encamped here. There was formerly a newspaper printed in the town, and I visited the printing office. The press had been removed and the type knocked into pieces, the office presenting a very confused appearance. There were no copies of the paper in the office, but among the rubbish I found a piece of one from which I learned that the name of the paper was *Fairfax County News*. The town is mostly deserted, and all the tradesmen have left. The few citizens who remain are of secession proclivities.

When we reached Fairfax, there was no flag flying in the vicinity. Lieut. White, of Co. D, having an American flag with him, his company procured a pole soon after reaching this place, and the 22d Regiment had the honor of raising the first Union flag in Fairfax Court House, since its evacuation by the rebels. The rebels left on Sunday, having heard of our advance by some unknown means. Fairfax is seven miles from Centerville, and about twelve from Bull Run.

We left Fairfax on Saturday the 15th. The night previous was a busy one indeed. We had orders to cook rations for three days, and gangs of men were detailed, and kept running most of the night for water and wood. It was a cold, drizzling night, but the chilly effect was somewhat soothed by the huge camp fires, the cooks bustling about, and the men passing to and fro in busy preparation for the next day's march. One sufferer appeared on the ground just at the right moment with a well-stocked team, and he was soon surrounded by a hungry crowd, all anxious, almost ravenous, to get a supply of good things to help out the rations while on the march. So great was the excitement that a guard was posted, and the men fell in and marched up to the sufferer's tent in single file, each man as he approached being obliged to fall in the rear and be served in his turn. This file of ration hunters continued their march until midnight, when they were ordered to break ranks; but they were at it again before daylight, and continued their efforts until ordered into line. The haversacks of the men looked fat, and for one day at least it was evident they would live well.

CARD.

Having become satisfied after thorough investigation, that Elastie Sponge, as now and lately manufactured, is one of the best, if not the best, material for marine purposes in Utopia, we have accepted the Agency of it, and intend to make it a specialty in our business.

The objections which have been made to it are well founded, we have ascertained, to be urged by persons who have not given it a fair trial, and the manufacturer has been entirely remiss in giving the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge and in charging it with glycerine with such entire success, that Elastie Sponge is now perfectly pure, and there is absolutely nothing in it but the clean sponge of a chemically pure glycine.

The objections to Elastie Sponge being thus removed, there remain undisputed merits which are of great value, and which are of great value as it is one of the most curious and interesting of late discoveries. Chief among these merits is the great power of absorption of water of this business—and against all other insects. Then elasticity is permanent, and it is the means of giving the sponge its power of destruction.

It will, it is believed, be found, everything considered, to be a good sponge, as well as to supply the wants of us—six were occupied by the line officers and part of the "non-coms," and one by the staff. The rest of us gathered some boughs, and made up places for sleeping on the ground.

It was very cold during the night, the camp fires which were made proved very comfortable. Many of us bivouacked on that night for the first time, and we could hardly have had a more unfavorable time, fatigued with our (to us) long march and no covering but our blankets, but no one caught cold, and next morning the surgeon had no patients.

The regiment was all up before "reville," and warming themselves at the camp fires. The wind went down at daylight, and the sun rose warm and pleasant. Just over the turnpike a small brook furnished water for washing and cooking, and it was used pretty freely.

Fairfax seems to have been quite a good-looking town. It is built on a hill, pleasantly situated, and the houses, being mostly of brick, are very fine residences. THE COMMON.—Enough has been said on this topic for the present. Let every voter be on hand to night and record his opinion, and then let the committee carry out the will of the majority.

SUPERINTENDENT OF SCHOOLS.—The school committee of Newton have elected Thomas Emerson, now superintendent of the schools in Woburn, to the same position in Newton, at a salary of \$3000 per annum. Mr. Emerson has decided to accept the offer and has filed his resignation with the Secretary of the School Committee. Mr. Emerson has filled this position for several years in a very acceptable manner, and his performance of his numerous and difficult duties have been such as to entitle him to be called the model superintendent. Newton has done well in securing him, and while we regret his departure, we congratulate him on the election to a town which not only has the means but the will to do well by her public servants, and which is not content with anything short of the best in all her municipal departments. The following is Mr. Emerson's letter of resignation:—

WOBURN, June 13, 1871.
J. G. Pollard, Esq., Secretary of the School Committee of Woburn.

Sir.—I hereby tender my resignation of the office of Superintendent of School, the former to take effect on the 1st of next September. My official services have been rendered without interruption for a period of nearly ten years, and in dissolving this connection I will refrain from expressing my gratitude and appreciation of uniform courtesy of which I have been the recipient from the members of the present Board. My hands are now however strengthened for your work by your kind co-operation and charity of judgment. With my sincere wishes for your future happiness, Yours, with respect,

THOMAS EMERSON.
At a meeting of the School Committee held Thursday evening, the following was unanimously adopted:—

Whereas, Mr. Thomas Emerson has tendered his resignation as Superintendent of the Schools of this Town, to accept a similar position in the Town of Newton, therefore, Resolved, That in accepting his resignation, we regret the necessity of it, and take this opportunity to testify our high appreciation of his qualifications for the post he has filled, and his eminent fidelity in the discharge of its duties.

SELECTMEN.—On Thursday evening the Selectmen and School Committee in convention, voted to build the Cambridge street schoolhouse on the triangular piece of land formed by Lexington, Cambridge and Russell streets. The Selectmen accepted plans for North Warren and Galilee streets, and for Albany and another at East Woburn. The plan for extending Church Avenue to Court street was found impracticable, and the petitioners had leave to withdraw. Voted to locate a gas lamp at corner of Main and Hudson streets. An enlargement of the barn at the Almshouse was referred to the overseers of the Poor. On Thursday the entire Board of Selectmen made a visit to the almshouse, and thoroughly inspected that institution. They found everything in excellent condition.

PLAIGARISM.—Rev. J. E. Bell delivered a very nice Decoration Day address at Stow, but it now comes out that the same address was delivered by the Rev. Dr. Manning on the 11th of May. The Reverend Bell holds to the conventional doctrine that whatever a man allows to be printed becomes the property of the public, and any one may adopt the speech or the sermon as his own without being a literary thief. And yet there are people in Reading who would get mad if any body should say that Bell was a first class thief.

TRUANTS.—George Johnson and Thomas Bishop were sent to the Lowell Reform School for one year, for being truants. Andrew McHugh, Jr., came near going, but on account of the representations of his father, he was put on probation. There are other boys on the list of our truant officers who will go to Lowell if they do not attend school more regularly.

PERSONAL.—Dr. E. Catter arrived home from his California trip on Saturday. On Wednesday, S. R. Dilliver, of San Francisco arrived in town. He heard Brigham Young preach last Sunday in defence of polygamy.

Last Saturday we had a call from George W. Powle of Jamaica Plain, the founder of the Woburn Journal.

DOGS.—There have been 241 dogs licensed this year, and the Selectmen have discovered 71 more that should be licensed but are not. The names of their owners are given to the police, and some of them will feel unpleasantly, unless they call on the Town Clerk, and get a license.

WATER.—The Board of Water Commissioners of the City of Charlestown, will visit Woburn on the 5th of July, to re-examine the water courses that lead to Mystic Pond, with a view to purifying those turbid streams.

STRAWBERRIES.—Now is the time to enjoy this fruit, and so thought several hundred who gathered in the Methodist vestries on Wednesday evening at the annual strawberry festival, where every body had a good time.

J. Franklin Bates.—J. Franklin Bates, of Boston, has been promoted to be Chief of the Division of Audit in the office of Comptroller of the Currency, vice L. M. Price resigned.

The sermons preached at the graduating exercises at the Hartford Theological Seminary on Tuesday were by J. C. Bodwell, Jr., and Myron Eells, Saturday afternoon, June 17.

SHINGLES.—650,000 Shaved Cedar and Pine Shingles, various grades, of an extra quality, just landed, and for sale low, for cash at J. E. Littlefield & Sons, old stand, 96 Main street.

DISEASES OF THE EYE, EAR, HEART AND LUNGS.—Dr. Bragg, of Chelsea, will be at the Central House next week Monday and Tuesday. Dr. Bragg in his treatment of the Eye, Ear, Head, Throat, Catarrh, Heart and Lungs, has low a great reputation.

E. R. Willey.—On Monday afternoon a son of E. R. Willey, between five and six years, while playing on a horizontal bar, in Boutelle's barn, fell and broke both bones of the left fore-arm, also dislocating his wrist.

OCTOGENARIANS.—There are fourteen persons in this town above the age of eighty years.

FENCING THE COMMON.

Mr. Editor:—As the time approaches for the Town Meeting, at which the proposed improvements upon our little Common will be again brought up for discussion, and, as we hope, finally disposed of, the interest of our citizens on the subject increases, and the feeling seems to be gaining ground that its present form should be retained, and that all the noble elms, which have been so long growing to their present size and form, should be preserved. It is to be regretted that any personal feeling should introduced into our deliberations upon this subject, or that any one should so violently oppose a plan of operations because some other favors it, or that the meeting should be packed and told how and when to vote. This is not according to the general idea of a citizen acting upon his own judgment, and voting in accordance with his own free will and accord. If the meeting on Friday evening will abstain from all personalities, and calmly consider the subject, the debate in a cool and deliberate manner, then we may expect a fair and impartial settlement of the whole matter, and not the triumph of one man over another. Such a result is earnestly desired by all good citizens, and any plan that may be fairly and honestly adopted by the town will be peacefully acquiesced in by them. The vote of the town, at its meeting held Friday evening, June 21, is as follows:—

That the Committee on fitting up the Common, chosen at the Town Meetings held in April and May last, be instructed to put a suitable fence upon the circular stone base now set, construct a sidewalk not less than eight nor more than twelve feet wide, with an edge stone on the outer circle of the same, protect the trees and shrubs, and plantings to the grounds as the Committee may deem proper, and take away the old fence.

That the Committee on fitting up the Common, chosen at the Town Meetings held in April and May last, be instructed to put a suitable fence upon the circular stone base now set, construct a sidewalk not less than eight nor more than twelve feet wide, with an edge stone on the outer circle of the same, protect the trees and shrubs, and plantings to the grounds as the Committee may deem proper, and take away the old fence.

MIDDLESEX COUNTY JOURNAL, SATURDAY, JUNE 17, 1871.

The Doctors of the "regular" school I soon determined to convince the country that they are simplest. The association at Washington has refused admission to one physician of creditable army and private practice solely because a quarter of his blood is of African descent, and to another of eminence in social circles and his profession because he is a negro. The negro is entitled to the District Board of Health, whence no member is a house-pather. The State association of Pennsylvania has a rule not only prohibiting consultation with thoroughly educated female physicians but making it an expulsive offence to teach medicine to a woman, or to consult her when she so teaches. Happily the condition of things is not so bad, but anywhere else in Pennsylvania, but Boston, it is of one sort or another continually manifests itself in different sections of the country to the disgrace of the profession. At the late meeting of the National Medical Association in San Francisco a proposition was made that all negroes be prohibited from becoming members. Ourselves was not to admit women, but to admit men who teach women. It was defeated after an exciting debate by a vote of more than three to one, but was also a declaration allowing members to consult with mothers of women's medical colleges! Could any go further? And yet these doctors, and their theories, are the pride of our liberal and learned professors. They scoundrel the very word "learning" and "eloquence". Utterly blind themselves, they would shut out light and knowledge from every one else! There is consolation in the assurance of all human history that they cannot many years longer oppose the march of progress and education.—*Every Saturday.*

SUMNER'S ART TREASURES.—Mr. Sumner has a collection of fine pictures and treasures of art. On his walls hang original paintings by Titian, Raphael, Sir Godfrey, Sir Joshua Reynolds, Benjamin West, Gerard Dou, and a fine collection of old French, Flemish, Italian, Spanish, and Dutch masters. The light of the morning shines full upon one of the material beauties of the Court of Charles II., and upon the portrait of Hanno's More, by Sir Joshua Reynolds. The opposite room is a women's room. On the sofa in the large room sits a group of Spanish officers in a Holland guard-room. They are smoking their pipes and holding up wine cups in their hands, as if revelling in mirth and "dreadful" fun. In the room of the Dutch guard-house, opposite the Holland guard-room, sits a figure in open porch. In a pants leg over the mantle a god is descending to break the chains of a slave. Here are a portrait of Benjamin Franklin, busts of Washington, Franklin, &c. Exquisite heads of many of the masters of the world line the wall from floor to ceiling. Elsewhere are to be seen engravings from Turner; the head of young Augustus from which the portraits of the first four Presidents were taken; the bust of Mr. Sumner, taken in '39, while he was at Cambridge; the winged Mercury; the Veritas of Michelangelo; Caesar, Pompey, and other antique busts, and many engravings of the head of Burke.

THE MAN WHO WILL NOT PRETEND.—It will be seen by our telegraphic despatch that Mr. Sumner has been obliged to notify by letter the "unfortunate" that has been made over his New Orleans speech. It seems he fell into the mistake of trying to deliver a private speech on a public occasion, being deceived with the idea that no reporters were present. Gen. Sherman, however, can afford to make mistakes, for he is the one man in the country who does not want to be President, and won't be President, even if elected as such. We congratulate him on this climax of personal sovereignty to which he has attained. The distinction almost outshines the stars of his Generalship. It is a solid satisfaction to the people to know that there is one man in the country who, when he turns for the Presidency is coming, who has no corps of partisan runners, and fliers out in every direction, who is sending marked papers to editors, and fanning his own pluff to the four winds of heaven. Let Gen. Sherman talk where and what he pleases. With his continued services to the army and his immortal record in the past, his country will be content.

THE GREAT CANCER CURE.—A Washington dispatch says:

Dr. Bliss has returned from Indiana, where he found that Mrs. Matthews, the mother of Vice-President Colfax, has recently entered of cancer by enduring torture for a year. She is now in a perfectly paralytic condition of the stomach, liver, kidneys, and bowels. Another lady, the wife of a prominent official here, who was last winter and spring treated by an eminent Boston surgeon for cancer, without experiencing any relief, has now, however, a perfect cure, and has begun to take the direction of endurable bark. She has been so deeply troubled that her husband expects to take her to Massachusetts about the first of July, entreated earnestly. On the other hand, the wife of a man who is as much opposed to Dr. Bliss, because he is willing to recognize colored physicians, deserves endurable bark as a bumble-bee. She has now presented from the Arctic Seas a small quantity of an oil, which apart a ward in the Union Hospital for the purpose of testing it, and declare that they will prove that it has no value as a specific.

VALUABLE SECRET.—The *Scientific American* says: "The unpleasant odor produced by perspiration is frequently due to the action of persons who are subject to it. This is the case when it is only necessary to present some of the compound spirits of ammonia and plant about two tablespoonfuls in a basin of water. Washing the face, hands and arms with this, leaves skin as clean, sweet and fresh as one could wish. The wash is perfectly harmless and very cheap. It is recommended on the authority of an experienced physician."

ANOTHER CALIFORNIA STORY.—This relates how she gave offense to one of the party accompanying the English High Commissioners. She was praising the Golden State.

"Aw yes" said the gentleman, "I place, no doubt, but shouldn't care to live here, you know. You have earth quakes, and they are such shockers."

The lady laughed, and said to a bystander, "What an excellent joker! He calls earthquakes 'shocking minnows.'

"Mehan" said the supposed wif, laughing with undiluted glee, "I never pun."

There is a man in Dakota, Iowa, so pugnacious that, when shooting a kernel flew into the wood-pile, he removed seven cords of wood to find it. A neighbor standing by dropped a kernel near where the searcher was looking. But when he found it, he said: "You can't fool me with that kernel; I've had a worse."

Another story. A Christian virgin in a circus, who has given bad weight and not poor still shows itself in a little plumper weight and a little fresher stool. A newly converted man is like taking a lump of sugar and putting it in a cup of tea; no great dash or bluntness but the tea is sweet."

"Well, my young gentleman, and how would you like your hair cut?" "Oh! like papa's please—with a little round hole at the top."

A link-boy asked Dr. Burgess, the preacher, if he would have a light. "No, child," says the doctor, "I am one of the lights of the world." "I wish, then, repeat the boy, "you were hung up at the end of our alley, for it's a very dark place."

ENTERPRISING!

Have you seen Turner's Improved
Card P. 13222323 is only \$1 per doz.

Admittedly all to be the cheapest and best in the
world. The only difference between it and all others
is that it creates an entire book of its own, and
nothing else. It is the only book that can
be had for less than \$1.00.

BARNUM'S GREAT SHOW.

The advance guard of the great show man's army entered Woburn, on Tuesday last, and negotiated for a location which to pitch the triple caisson which on the first of July will be the center of attraction for the populace of this and the adjoining towns. He was followed next day by the bill posting department, and all available points are now posted over with illustrations of what may be seen on the eventful day.

ACCIDENT. — Wednesday evening, about six o'clock, Deacon Nathan J. Johnson, of Winchester, was sitting in his carriage, near Buckman's shoe store, when J. E. Stewart, driving Whitehead's lumber wagon at a rapid rate, ran his team against the Deacon's, throwing the latter with great force to the ground. He was taken to Dr. Harlow's in an insensible condition, and remained unconscious for half an hour. His collar bone was broken, and he was severely bruised about the head and face. After recovering somewhat, he was taken to his home in Winchester. Deacon Johnson is over 80 years of age, and it is remarkable that the shock he received did not terminate fatally.

LECTURE. — Last Sunday afternoon, M. J. Spettigue lectured in "Burbank Hall" upon the subject, "Religion and Immortality." In the evening Christopher R. Devere, M. D., spoke at some length on the subject of "Spiritualism." Owing to the moist state of the weather, but few were present.

EXPLOSIVE. — A few days ago one of our subscribers went to North Woburn, and purchased a jug of water from the famous mineral spring in that village. He brought it home, and leaving it tightly corked it exploded, breaking the jug. It was lucky he didn't drink it.

ACCIDENT. — A game of ball was played on Saturday last, between the Essex Base Ball Club of Woburn Center, and the Syracuse Base Ball Club of Cummingsville, on the grounds of the latter. At the close of the 5th inning the Essex's gave up the game. The following is the score: —

ESSEX.		O. R.	
J. Ryden.	2 1	O'Brien.	1 2
J. Ryden.	2 1	McLaughlin.	1 2
C. Doherty.	2 1	McQuillan.	2 1
J. Kiley.	2 2	Holman.	2 6
A. Strother.	2 3	Dever.	2 9
W. Lynch.	1 2	Flaherty.	1 1
J. Johnson.	2 1	Conroy.	2 1
D. Ryan.	1 1	McCarthy.	1 1
Total.	15 16	Total.	15 6
Innings.		Innings.	
Essex — 7 1/2.	16	Woburn — 7 1/2.	16
Umpire, Mr. McLaughlin.			
Time of game, one hour and a half.			

SCENIC. — T. Marvin Parker, and Albert Thompson have been engaged in painting the artistic scenery for some time, and last Saturday we called at their studio and found them at work upon it. The proscenium is completed and is 22 feet wide by 14 feet high, measured from the level of the stage. It has an opening 18x12 and the scenes are 11 feet high. The wood wings they have painted are natural size and when lighted up will be very effective. The whole is designed for Lyceum Hall, and is to be used in the representation of the "Union Spy," which the G. A. R. will reproduce this fall.

ACCIDENT. — A gentleman in celebrating his birthday by a visit to Lynn, on Wednesday last, was somewhat astonished to find that he was stepping at a house the owner of which was also observing his birthday, at just twice his age. — *Lynn Reporter.*

MINERAL. — We are indebted to Mr. J. P. Tyler for a pitcher of water from the Mineral Spring at North Woburn. It is very clear, has a pleasant taste, and makes us feel like men with a full glass.

NEW PUBLICATIONS.

SCHRIER'S MONTHLY FOR JULY leads off with a splendidly illustrated article, by J. T. Headley, on "Philadelphia." The next article is a very interesting account of Mr. W. H. Hallock's "Jewels in Japan," in which some valuable information is given concerning out-of-the-way portions of that marvelous island. The most important essay in the present number is Horace Bushnell's able discussion of "Free Trade and Protection," in which this distinguished writer and thinker presents what seems to be a very common-sense and judicious view of a much-mooted question. Miss Louisa Bushnell follows her father with a charming account of a "Fête-day at Malmaison." A most curious article is R. W. Wright's "Samson's Riddle Solved—the Lion-ump versus The Lion-cub," by which the learned writer appears actually to have discovered the solution of Samson's celebrated riddle, which has puzzled the world for three thousand years. Mrs. Richardson's timely and sensible "Plea for Chinese Labor," will meet with the approbation of every American housewife; and "Back-Log Studies," by Charles Dudley Warner, is a most witty, thoughtful, and suggestive paper.

The July number of "PETERSON'S MAGAZINE" is on our table, and is unusually good, even for this unrivaled Monthly. The principal embellishment is a spirited steel engraving, "Ahead of the Field," illustrating an old love story. The fashion-plate is on steel, and richly colored. "Peterson," it is known, is celebrated for the surpassing style and beauty of his Paris fashion-plates. The stories are all original, and by our very best writers. It gives more for the money than any other. Indeed, it is a standing wonder how so good a magazine can be published at so low a price, viz., \$2.00 to single subscribers, or \$1.50 to clubs of four; but it is to be accounted for, we suppose, by the enormous circulation. Address CHAS. J. PETERSON, 306 Chestnut street, Philadelphia.

THE OLD CURIOSITY SHOP.—"Of making of books there is no end" is as true at the present day as when it was written. The first number of volume first of the *Old Curiosity Shop* is before us, and judging from its contents we should say it will take its place among the first-class Magazines of the day. "What we mean to do," say John Granger and I, "Of such is the kingdom of Heaven," "Ancient Games," "A Mysterious Lodge," &c., are among its contents. To all persons who subscribe before the first of August, it will be sent one year, postage paid, for only \$1.

THE GALAXY.—The July number opens the twelfth volume of this magazine. It is printed with new type, presenting a larger and fuller face than the former. A very good wood cut of J. W. DeForest, author of "Overland," on the frontispiece. "Lady Judith" is continued. "Republicanism in England," "Through a Window," "The Dutch at Home," "The man I did not Marry," &c., besides the Scientific Miscellany, Current Literature, the *Graphic*, *Army*, *Rouen* and *Nebula*—the auxy Club this month, are the attractions.

THE ATLANTIC MONTHLY for July is at hand. It is now approaching that time of the year known as "Sil' Y Season" of magazines and literary papers. But friend Osgood does not as yet seem to feel the epidemic, if we may judge from the Atlantic's table of contents this month. "How we Met John Brown," "From Generation to Generation," "The Boy and the Brook," "Castilian Days," "Their Wedding Day," "Kate Beaufort," &c., together with the review of recent literature.

HALFED'S MONTHLY—Contains for July an article on "Mount Cenis railway," and "The United States Naval Academy," "Along the Florida Road," "The recovery of Jerusalem," "Anteros," "The American Baron," "When this old flag was new," (poem) "The Saddest of all is Loving," "Annie Furness," "The Star Spangled Banner," "The Spectre iron Eliza," &c. The engraving in this numbers are very fine. Sold by Horton.

THE GLOBE PRESS—This interesting little magazine is again before us. It is stored with choice things this month that will be very pleasant for the children to read.

THE NURSERY for the youngest readers puts in its appearance, and must not be forgotten. The first picture, "The Invincibles," is a very characteristic one. The contents are good as usual.

THE GREAT BILIOUS BITTERS.—We have received a handy little book of 40 pages, containing time tables of the Lowell Railroad, and cards of business men along the route. It is distributed gratuitously. Published by Gilbert, Crane & Co., 151 Washington St. Boston.

OUR YOUNG FOLKS.—This interesting little magazine is again before us. It is stored with choice things this month that will be very pleasant for the children to read.

THE NURSERY for the youngest readers puts in its appearance, and must not be forgotten. The first picture, "The Invincibles," is a very characteristic one. The contents are good as usual.

FINE SCISSORS AND Superior Pocket Cutlery, WARREN & STROUTS, YCEUM BUILDING.

Mrs. Moore is of the stuff heroes are made of. Recently, at Nashville, when her son fell down a well, twenty-four feet deep, she neither fainted nor screamed, but instantly, with herself down, "hurrah overboard," caught the child with her arms, drew herself and son all the way up again, and then, woman-like, spanked the boy for falling in.

While contributions were being received for decorating the soldiers' graves at Easthampton, two little girls brought in a basket full of wild flowers and offering them to a general. "I know," one said, "I know they ain't good for nothing, but they killed my father down there, and I wish you would take them."

Mrs. Moore is of the stuff heroes are made of. Recently, at Nashville, when her son fell down a well, twenty-four feet deep, she neither fainted nor screamed, but instantly, with herself down, "hurrah overboard," caught the child with her arms, drew herself and son all the way up again, and then, woman-like, spanked the boy for falling in.
